RIGBY, IDAHO

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO }
County of Jefferson } ss

I, Terry Weatherston,
being first duly sworn, depose and say, that I am
the printer of THE JEFFERSON STAR, a weekly
newspaper printed and published weekly at
Rigby, Jefferson County, Idaho; and I do
solemnly swear that the

Notice Of Application For Water Right

a copy of which notice appears attached here-
to, was published in the regular and entire issue
of said newspaper, and not in any

supplement issue thereof for 2
consecutive issues, the first publication hav-

ing been made on April 3, 1985
and the last publication having been made
on April 10, 1985.

Further, that said newspaper is one of general
circulation in said county; that it is a legal
newspaper, conforming to legal specifications
under the Idaho Statutes; that it has at least two
hundred bona fide subscribers living within the
county of publication; and that it has been
continuously and uninterruptedly published in said
county during a period of seventy-eight con-
secutive weeks prior to the first publication of the
said notice.

WATER RIGHT LICENSE

WATER RIGHT NO. 35-08223

Priority: August 26, 1983

Maximum Diversion Rate:

1.50 CFS

This is to certify, that CITY OF ROBERTS

PO BOX 242

ROBERTS ID 83444

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 12, 1983; and has submitted Proof of Beneficial Use on January 15, 1992. An examination indicates that the works have a diversion capacity of 1.750 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
MUNICIPAL	01/01 to 12/31	1.50 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SWNE , Sec. 32, Township 05N, Range 37E
JEFFERSON County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Place of use is located within the city limits of Roberts and the surrounding service area.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 4TH day of FEBRUARY, 1995.

Acting for

R. Keith Higginson, Director

FEB 18 1995

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 35-08223

IN THE NAME OF CITY OF ROBERTS

)
) ORDER OF
) REINSTATEMENT
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before January 1, 1992; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

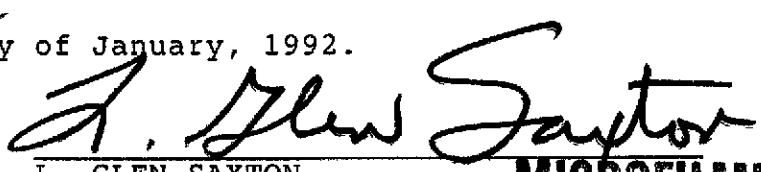

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on January 15, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 35-08223 be REINSTATED with an advance in priority to August 26, 1983.

Dated this 21st day of January, 1992.

MEMORANDUM

To: File 35-08223
From: L. Glen Saxton *LS*
RE: MEASURING DEVICE REQUIRMENT - PERMIT 35-08223
Date: August 19, 1992

On this date, the clerk of the city of Roberts called me and advised that Mark Tanner, their "sewera dn water" employee no longer worked for the city and she did not know what the department required with respect to the measuring device requirement on permit no. 35-08223.

I advised the clerk that someone from our Idaho Falls office would review the matter on site and advise the city of what was needed. I then called Ron Carlson who advised he would send someone to meet with the city and review the matter.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 35-08223

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 35-08223

Name(s) of Permit Holder: City of Roberts

Mailing Address: Box 242 83444

Date Proof is Due _____ Telephone No. 208-228-3220

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

All requirements as requested by your Dept. has been
Completed except the flow meters. These will be installed
in the Spring or early summer by Walker Pump Co. of
Rigby, Ida. Costing \$ 1500⁰⁰ estimated

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

By the time we got the design from Walker Pump Co., it
was too cold to dig the ground to install the flow meters, as the
pump house is too small to put the meters on, they will be outside
the pump house.

Permit holder(s) request an extension to July 30, 19 92.

FEE: \$15.00

Re: Permit No. 35-08223

Dear Mr. Tanner:

I have reviewed the amended Request for Extension of Time (extension request) and the Proof of Beneficial Use (proof) which you recently submitted in connection with the above referenced permit. Submittal of one document or the other is appropriate but not both.

Glen Saxton and I have discussed the submittal and have determined that the proof submittal is the proper one, since the file shows that the department has already approved an extension request in the past and is not authorized to approve a second one.

Returned are both forms since the proof form needs to be signed and the extension request is not appropriate. Note that I have made some changes on the proof form so it will be consistent with the water right permit. More specifically I have made the following changes:

1. The use is now shown as municipal rather than domestic.
2. The rate of diversion is properly shown as 1.5 cfs.

To complete this process, you need to sign and return the proof together with \$110, which is the difference between the required license examination fee of \$125 and the \$15 which you submitted on December 6, 1991, in connection with the extension request.

Please complete the activities described above within 20 days since the permit has lapsed and is losing a day of priority for each day the submittal is late. Also note that the access port or measuring device must be in place when a department representative from our regional office in Idaho Falls conducts a field examination of the water system.

Dear Mr. Saxton:

Re: Permit No. 35-08223

Enclosed is the form filled out that you requested on proof of beneficial use, and also request for extension of time. Also is a copy of the receipt for the extension of time that was paid 12-6-91.

As explained we are waiting to complete the flow meter installation with the coming of Spring so we can dig the ground and build the proper housing for the flow meters, as the pump house is too small. Walker Pump of Rigby will be doing the work and engineering. Then we will await the approval of your department if that is necessary.

Sincerely,

Mark Tanner,
Public Works Dir.
City of Roberts

MEMORANDUM

To: File 35-8223
From: L. Glen Saxton *MS*
RE: PHONE CALL FROM PERMIT HOLDER
Date: January 6, 1992

The permit holder called today in connection with the lapse notice. I explained that the permit lapsed since he had not provided the information requested by the department to clarify the request for extension of time.

From what I could understand from the permit holder, the development is complete except for the installation of the measuring device which will be installed in the spring. The permit holder said he would add the additional information to the request for extension of time and return it to the department.

I think the department should approve an extension for one (1) year to provide time for the installation of the measuring device since there is substantial confusion on the part of the permit holder relative to the requirements of the law.

Dear Permit Holder:

Re: Permit No. 35-08223

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable Proof of Beneficial Use submittal or an acceptable request for an extension of time to our letter of October 31, 1991. You also failed to respond to my second letter dated December 10, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the Proof of Beneficial Use or submit an Extension of Time Request showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 35-08223

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Dept. of Water Resources
1301 North Orchard St.
Boise, ID 83720

Dear Mr. Shaw:

This is to inform you that the City of Roberts has engaged Mr. Ed Walker of Walker Pump Co., Rigby, Idaho, to help take care of your request to install flow meters on our Municipal well, permit # 35-08223. Mr. Walker cannot install the meters on the wells, as there is not space to do so. Enclosed are photos of the well-house interiors that Mr. Walker took.

We have been consulting with Walker Pump Co., and they said they had been in contact with Dennis Dunn and Keith Wilson of the Water Resource Board in the Idaho Falls office on this matter. We have been advised that the Water Resource Board can do the required test measurement for the data you seek on the gallonage flow.

Sincerely,

Mark J. Tanner,
Public Works Director

RE: PERMIT NO. P35-08223

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit.

MICROFILMED

DEC 13 1989

enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 11-28-89

The applicant, City of Roberts, has returned the trust water questionnaire claiming that the source was developed and used prior to October of 1984. The application was filed in August, 1983. The questionnaire states that the source under this application was diverted and used since 1970. The questionnaire indicates that the diversion and amount of use has remained constant since 1970. The average daily discharge is equivalent to 0.20 cfs, or 0.40 AF/day.

Based on the amount of water diverted, this municipal use is not subject to the review requirements under Section 42-203C, Idaho Code. Furthermore, since the use had commenced prior to 1984, the application is considered a non-trust water diversion and should have been dismissed from the Swan Falls litigation.

The state office should proceed with normal processing of this application. Trust water conditions are not applicable in this case.

TRUST WATER INFORMATION QUESTIONNAIRE ~~Department of Water Resources~~

Application No. 35-8223

A. IF YOU ARE NOT INTERESTED IN HAVING THE APPLICATION PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED WITHDRAWAL FORM.

B. IF YOU ARE INTERESTED IN HAVING THE APPLICATION PROCESSED, please answer the following questions as thoroughly as possible. Use the reverse side of this form or attach additional paper if neccessary to answer the questions.

1. If the diverting works described under the application have been completed, please list the dates the diversion was complete and the water was put to beneficial use. Diverting works in this case refers to type of diversion (i.e.; groundwater well and pump; headgate and canal etc., refer to item 6 of the enclosed application). If the diverting works are not yet complete, please state the planned completion date.

2. Please describe the present type of uses associated with this diversion. If for municipal use, describe the relation of this diversion to the entire supply system and estimate percentage of use from this source for irrigation, domestic, commercial etc. If the diversion is not yet complete, describe how the source will be used.

3. What is the present average daily discharge and average daily volume of water diverted? Has the average daily discharge and volume changed since the diversion was first complete and put to use? If so, please describe.

4. Of the average daily volume of water diverted, what percentage is consumptively used. Please estimate if possible.

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

TRUST WATER INFORMATION QUESTIONNAIRE

1. The diversion was completed on April 1, 1970 and water has been put to beneficial use since the aforementioned date.

2. The diversion is for municipal use and provides 90 % of the entire water supply for the township of Roberts between the months of October and May, inclusive, and remainder of the year it provides 40 %.

3. The average daily discharge is 126,750 gallons per day and average daily volume diverted 126,750 gallons per day and has not changed since the diversion.

4. Of the volume diverted, 100% is consumed.

RE: APPLICATION FOR PERMIT NO. 35-8223

DEAR APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development if any, that has already occurred under your application.

Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, the department asks that you complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments and/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water.

Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the department to void the application.
