RE: License No. 35-08192
Moreland, Idaho Church

Dear Mr. Pincock:

In regard to our telephone conversation May 18th, the above referenced permit was licensed February 14, 1995. Since there was no response from you on our request concerning the surface water issue, we took the conservative approach and licensed the permit with the assumption surface water is available and/or has been used.

Condition numbers 6 and 7 of the attached copy are appurtenant to surface water that may be used in conjunction with the groundwater. If no surface water is used or if none was used prior to May of 1989, then those conditions do not apply.

Sincerely,

Brenda L. Chapman

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

Note: There was no response from Mr. Pincock whether this church is currently or has in the past used surface water in conjunction with the well water; therefore, the recommendation to treat this as a supplemental groundwater situation is being made.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-01 to 10-31	.34	Not listed
Domestic	1-01 to 12-31	.04	Not listed

The volumes have been listed in remarks based on current supplemental groundwater and combination domestic/irrigation rights processing procedures.

RE: Permit No. 35-08192

Dear Mr. Pincock:

The above referenced permit is in the process of being reviewed for licensing. This church may have in the past or is currently using the available surface irrigation district water in conjunction with the groundwater well. Before the license can be issued, I need to know if the surface water is being used and if not, at what point was the well the entire source of irrigation water for the recreational field adjacent to the church building?

Several weeks ago I contacted one of the church members, Mr. Alden Hale, who had assisted our field examiner with the 1991 Beneficial Use Field Report. Mr. Hale is no longer involved with the outside maintenance, but he said he would try to find out if the surface water was currently being used. To this date, I have not heard from him.

I have not discussed this permit or this particular situation with you before; however, I am sure this will become a common request as our state's focus moves toward possible future conjunctive management of our surface and groundwater resources.

I will enclose a copy of the permit and a map for your reference. The licensing process for this permit will be placed on hold for 30 days. Thank you for your assistance.

Sincerely,

Brenda L. Chapman
Water Resource Agent

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 35-08192

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck

Dear Mr. Spackman:

Attached is a check for \$150 and the signed documents requesting field examination for five water permits in Idaho. The list below shows the permit number, our property number and name, the amount of water requested in the permit and the fee. The document indicates a person to call to assist the state with the examination.

If you have any questions or comments, please let me know.

RE: PERMIT NO. P35-08192

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

RE: Application for Permit No. 35-8192

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

Dear Mr. Park:

Enclosed is a copy of ~~your~~ application for permit and a retyped application.

Please note the changes:

Part 4 of the ~~form~~ now reads 0.34cfs for irrigation and .04cfs for domestic. (The maximum diversion rate for irrigation is .02cfs/acre))

Part 9 now shows the new total diversion rate of 0.38cfs (170.6gpm).

The filing fee for 0.38cfs is \$45. Please sign the application and resubmit with the additional ~~application~~ fee.

If you have any questions concerning this matter please contact this office.

Sincerely,

STEVE MCCORMICK
Sr. Resource Analyst
