WATER RIGHT LICENSE

WATER RIGHT NO. 35-08154

Priority: June 13, 1983

Maximum Diversion Rate: 2.66 CFS

Maximum Diversion Volume: 532.0 AF

This is to certify, that WULF LEBRECHT
PO BOX 834

BLACKFOOT ID 83221 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 13, 1983; and has submitted Proof of Beneficial Use on May 10, 1991. An examination indicates that the works have a diversion capacity of 3.320 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	2.66 CFS	532.0 AF

LOCATION OF POINT(S) OF DIVERSION: NESW , Sec. 27, Township 03S, Range 31E
BINGHAM County

PLACE OF USE: IRRIGATION

			SWSE 34			

Total number of acres irrigated: 133

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code, Witness the seal and signature of the Director, affixed at Boise, this 22ND day of FEBRUARY, 1994.

PROOF DUE NOTICE

RE: PERMIT NO. 35-08154

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P35-08154

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

MEMORANDUM

TO: FILE/APPLICATION NO. 35-8154

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 3-19-90

=====

The applicant has returned the trust water questionnaire and claims that 144 of the 160 acres under this application were developed prior to October of 1984. This application was filed in June, 1983. The applicant at that time requested only one year in which to complete the project.

The Department's remote sensing report has the land classified as irrigated in 1986 (see attached place of use overlap report, 148 acres classified as irrigated). The 1979 7.5 minute orthophoto shows the land as undeveloped. A review of a June, 1983 infrared aerial photo available at the Department shows that the land at that time was cleared and farmed. The 1983 photo however is inconclusive as to whether the land was irrigated. The photo indicates that the land was most likely dry farmed. There are lands adjacent to these which were irrigated in 1983 and are covered by licensed groundwater rights. The well under one of the existing rights, 35-7887, is the same POD for this application.

Based on the available data above, review of the application, and response to the questionnaire, I recommend that the Department accept the applicant's claim that the irrigation project was completed prior to October of 1984. Although 12 acres under the application were not classified as irrigated in 1986, it appears from the questionnaire that the applicant will not submit proof on the full 160 acres. The department could limit the permit to 148 acres.

The application will be exempt from the review requirements of Section 42-203C. Trust conditions are not applicable.

RE: APPLICATION FOR PERMIT NO. 35-8154

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.
