WATER RIGHT LICENSE

AMENDED WATER RIGHT NO. 35-08150 AMENDED

Priority: May 24, 1983

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:

2.5 AF

This is to certify, that OTTO HEGE
2803 W 2000 S

ABERDEEN ID 83210

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 24, 1983; and has submitted Proof of Beneficial Use on August 30, 1989. An examination indicates that the works have a diversion capacity of .060 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.02 CFS	1.3 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF
	Totals	0.06 CFS	2.5 AF

LOCATION OF POINT(S) OF DIVERSION:

NENE , Sec. 17, Township 06S, Range 31E
BINGHAM County

PLACE OF USE: STOCKWATER

TWN RGE SEC

06S 31E 17 NENE

PLACE OF USE:

DOMESTIC, same as STOCKWATER use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

APPROVED

1. Name of applicant Otto Hege Phone 397-5252

Post office address Rt. 1, Box 105 Aberdeen, ID 83210

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 17 Township 6S

Range ~~30E~~ 31E B.M. Bingham County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.10 for Irrigation purposes from 4-1 to 11-1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.04 for Domestic purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.02 for Stock purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.16 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. well/pump with lines to one house
and water troughs.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 6 inches; proposed depth of well is 125 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial

use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is **not** for irrigation:

(1) Give the place of use of water: NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 17 Township 6S

Range ~~30E~~ 31E B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered 100 head of cattle

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water one.

(5) If water is to be used for other purposes describe: _____

MICROFILMED

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 35-8150, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

Witness my hand this 11th day of April, 1989.

RE: Water Right No. 35-08150

Dear Mr. Hege:

Enclosed is a copy of an Amended License issued on the above referenced water right. It now reflects the higher total rate of diversion that is allowed. That rate was based on the field examiner's calculations of the capacity your pumping plant could produce.

I am glad you sent us the letter questioning your license. The fiscal staff received your payment and I was not notified of it. I am also enclosing a copy of the receipt for your reference.

If you have any questions, please do not hesitate to call me.

Sincerely,

Brenda L. Chapman

RE: Permit No. 35-08150

Dear Mr. Hege:

We are in the process of reviewing the above referenced permit for licensing. Because you submitted your Proof of Beneficial Use form in 1989 for .04 cfs (which required no fee), the Department has no alternative but to issue the license for less than the amount actually diverted unless the fee required for the rate of diversion for all the uses (domestic, stockwater, and irrigation) the examiner found is received. The amount of water to be licensed will be limited to .04 cfs for domestic and stockwater use rather than .06 cfs which will also include irrigation.

You can submit the additional exam fee along with a late payment penalty. The priority of the right will be advanced according to the number of days from the date of this letter to the date we receive the extra fee. The exam fee required to cover the additional .02 cfs is \$50 and the late penalty is \$25.00, for a total of \$75.00.

The Department will hold action on licensing this right for 30 days to allow you to submit the above fees. Please direct the payment to my attention. If we do not receive them, we will proceed with licensing the permit for the limited amount of water without a change in priority date.

Sincerely,

Brenda L. Chapman

MEMORANDUM

TO: FILE/APPLICATION NO.

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 11-27-89

=====

This application was among those applications reviewed in the regional offices last year and recommended for out of sequence processing. This application includes a statement and sufficient supporting evidence concerning development of the project prior to October 1, 1984.

The department's Policy and Implementation Plan for Processing Water Rights in the Swan Falls Area provides for applications to be processed out of sequence if the development was completed prior to October 1, 1984 and the application filed prior to July 1, 1985. These filings are not required to be processed in sequence with other trust water filings because the effect of these filings have already occurred and because, due to subordination, the filings are not taking water held in trust. These filings are not subject to the staged development policy and public interest criteria of Section 42-203C, Idaho Code.

RE: PERMIT NO. 35-08150

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: Permit No. 35-8150

Dear Mr. Hege:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the Department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use that must be submitted when your project is completed.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Application for Permit No. 35-08150

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 35-08150. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Arco Advertiser. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

Re - application for permit # 35-8150.

I am not familiar with 42-203A Idaho Code.

Please send me a copy of this Code.

Also please give me the full amount of the cost, that would be involved to get this filing permit, for my well, so if the time ever arrives that I would have to use my well for sprinkling water on actual 4 acres of my pasture, I will be free to do so.

I did call your office on the first of the week. Your secretary said you were on the Phone and she asked for my telephone # 397-5252 and she ^{said} you would call me. I told her I would be home till noon and if he could not get around to call me, to have you call me the next morning.

I will be waiting for an answer.

Sincerely,

C. H. Hage

RE: APPLICATION FOR PERMIT NO. 35-8150

Dear Applicant:

The department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the department requests the information described below.

From the department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

The department asks that you advise us within 15 days of this letter if you no longer have a continued interest in developing a water right as proposed by the application. If you do not respond in this time period, the department will proceed with the usual processing of the application including advertisement.

Please feel free to contact the department if you have questions.

Sincerely,

Ronald D. Carlson
Eastern Regional Manager

RECEIVED

FEB 13 1985

Department of Water Resources
Eastern District Office

Dear Mr. Jones -

On Feb. 3, 1985, I received a letter from the the attorney's at Law - 142 - 3rd Ave No; Box 1906, from 'Nelson, Rosholt, Robertson, Tolman & Tucker' sending me two forms A + B. They asked me to complete one form which applies + return it to them. I have received ^{two} three letters in the past year. To date I have not answered any of them, please advise me what I should do.

I only have a 5 acre plot, which has a large area for wild live where the fish + game Department planted a hedge + trees in May of 1954. So with my yard off I really only have 3 acres to irrigated. I do have a full water right for 5A with the Aberdeen Springfield Canal Co.

I drilled the well on 8-15-79 and ^{filed} into operation in the summer of 1980. I did not have to file for water right, But in May 12, 83 I was told I must file. So I did file on May 15, 83.

I have only used my well for domestic + Cattle use and sprinkling around the yard. If ever I did sprinkle water on ground it would only be for about 3 acres but don't intend to do this.

If I send the attorney's at Law anything they will send me a bill for their scint they have going on. Yours truly
Please let me hear from you.

REC'D

Dear Sir:

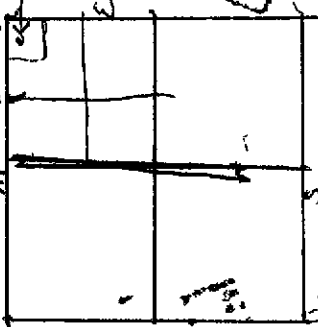

Department of Water Resources
Eastern District Office

On 8-15-79 I had a domestic well drilled and had the driller make a 6" hole in dia. so if needed to irrigate 5 A of land Paul Vollmer & sons Firm 67 did the drilling, they also made a report (Well Driller's Report) and send it to the State of Idaho Department of Water Resources.

I am not certain if they filed on this well, so I am making a filing now to protect my water right on the following well —

well owner — Otto H. Hege and Mabel Hege.
Landowner of 5 Acres of land located on the — County of Bingham

N.E. 1/4 of the N.E. 1/4 n. Sec. 17 — T-6S — R-3E

well location

well

6" hole — 12.5 ft depth.

Enclosures

*All O.K. except I had the
range as 30E + it is 31E, I did
make this correction. It was my fault.*

Thank you

Otto H. Hege

*P.S. I change number of cattle from
200 to 100. If you want to change
it back to 200 its O.K. with me.
O.H.H.*

RE: Application For Permit No. 35-8150

Dear Mr. Hege:

Your application to appropriate groundwater for stockwater, domestic and irrigation purposes was receipted in this office May 31, 1983 and subsequently numbered 35-8150.

Because the application requested water for the irrigation of 5 acres, final administrative action is being withheld until a final decision has been reached on the subordination issue of Idaho Power Co. water rights at Swan Falls. This issue is being examined by the Legislature and pursued in the courts. However, we do not expect a conclusion for at least two years. This office is currently withholding administrative action on over 400 irrigation or other consumptive use applications pending the outcome of this case.

Since the use of groundwater for domestic purposes in a single family household, irrigation of $\frac{1}{2}$ acre and drinking water for domestic stock is exempt for registration with the State, you can use the water for these purposes prior to issuance of a permit from the Department.

If you have other questions or desire a more detailed explanation of the above matter, feel free to call or contact this office.

Respectfully submitted,

ERNEST CARLSEN
Assistant Regional Supervisor

 ABERDEEN, IDAHO 83210

SUBJECT:

On May 13, 1983, I made a filling on
 my domestic well which was also large enough to
 irrigate my five acre tract of land.

FOLD ↑

DATE: Jan. 4, 1983

My check was returned with an application for permit
 # 92-145. I completed the application and returned
 the check along with it. My check was cashed but I
 have never heard a word from you since. Please check
 into this so I will get my permit. 5 Acres NE 1/4 of the NE 1/4 of sec 12, T 6S R 3E

Dear Mr. Jones -

5-21-83

I gave you range 30E. It should be 31E. I corrected this on the application.

Also I change head of cattle to 100 instead of 200 head. Split would be better to have it 200 for the next landowner change it to 200. I am 76 years old so I won't ever need more than 100.

Sincerely,

Att. H. Hoge
