NOTICE OF CORRECTION

NOTICE IS HEREBY GIVEN that
Application for Permit No. 35-7842 in
the name of Douglas Williams was
advertised incorrectly on March 1
and 8, 1979. The application number
was advertised as being 35-7841;
the point of diversion was advertised
as being within the NWNE Sec 24 T
025 R 33E, Bingham Co.; and the
place of use was advertised as being
within the NENE NWNE SWNE SENE
NENW NWNW SWNW Sec 24 T 025 R
33E SENW Sec 24 T 025 R 33E.

WHEREAS, the actual application
number is 35-7842, the actual
diversion point is located within the
NWNE Sec 24 T 02S R 33E and the
actual place of use is located within
the NENE NWNE SWNE SENE NENW
NWNW SWNW Sec 24 T 02S R 33E
SENW Sec 24 T 02S R 33E.

Any protests against the granting
of this permit as a result of these
corrections must be filed with the
Idaho Department of Water
Resources, 1515 Lincoln Road, Idaho
Falls, Idaho 83401 on or before April
2, 1979.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 20464/35-2007 Priority May 14, 1948 Amount 17.24 cfs

THIS IS TO CERTIFY, that C. L. WILLIAMS
of Blackfoot, Idaho, has complied with the terms and conditions of Permit
No. 20464/35-2007 issued pursuant to Application for Permit dated May 14, 1948
and has submitted proof to the Department of Water Resources on May 17, 1955
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of 17.24 cfs of water from a ground water source
tributary to _____ and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>Nov. 1</u>	at <u>17.24 cfs</u>	<u>3,923.5 acre feet or 3.5 af per acre</u>
	from _____ to _____	at _____ cfs	
	from _____ to _____	at _____ cfs	

(both dates inclusive)

Subject, however, to the condition that no more than 17.24 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and sufficient for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
3,923.5 acre feet per year, said waters to be diverted within the NW 1/4 NE 1/4, NW 1/4 NW 1/4, SE 1/4 SW 1/4,

Sec. 19, Twp. 2 S, Rge. 34 E, B.M. -and- in the County of Bingham
(NW 1/4 NE 1/4, NE 1/4 SE 1/4, NW 1/4 SE 1/4, Sec. 24, Twp. 2 S, Rge. 33 E, B.M.)

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				Total
			NW	NE	SE	SW	NW	NE	SE	SW	NW	NE	SE	SW

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 35-7842 Priority February 20, 1979 Amount 1.10 cfs

THIS IS TO CERTIFY, that Douglas Williams
of Blackfoot, Idaho, has complied with the terms and conditions of Permit
No. 35-7842 issued pursuant to Application for Permit dated February 20, 1979,
and has submitted proof to the Department of Water Resources on June 13, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.58 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u> at <u>1.10</u> cfs and	<u>192.5</u> acre feet	
	from _____ to _____ at _____ cfs and		
	from _____ to _____ at _____ cfs and		

(both dates inclusive)

Subject, however, to the condition that no more than 1.10 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
192.5 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 24,
Twp 2S, Rge 33E in the County of Bingham

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State

of Idaho No. 35-7842, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore April 1, 1984.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: An access port or other device as specified by the Department shall be

installed by the permit holder to provide for the installation of measuring

equipment and the determination of the rate of diversion by the Department.

Witness my hand this 16 day of

MICROFILMED

MEMORANDUM

TO: File 35-7842

FROM: Jim Johnson

DATE: January 5, 1984

RE: License Review Summary

The licensing of this right required special consideration because of an existing right, 35-2097, which used several wells (non-interconnected) on a large land area, 1,121 acres, part of which overlapped with this right.

The permit holder stated on his application for permit 35-7842 that he had intended to use the right to supply water to additional lands not covered by 35-2097 and to increase the allocation of water per acre on the lands identified on the permit to 0.02 cfs per acre.

When the field examination was made, the examiner found that the well described as the point of diversion within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, Twp 2S, Rge 33E was not the same well located in the same 40-acre tract that was identified under right 35-2097.

The field exam recommended that the license be prepared with 309 acres being supplied water and that the amount measured (4.58 cfs) be used on this land. However, because of the relationship to the existing overlapping right the amounts recommended on the field examination needed adjustment. See memo dated 11/22/83 for additional explanation.

INTER-DEPARTMENT MEMO — 1

DATE 11/22/83

FROM Dave T

TO Jim

SUBJECT 35-7842

The existing water right on 300 of the acres identified in this permit is 35-2097. This rt was issued for 17.24 cfs for 1121 acres, or 0.0154 cfs/acre, or 4.61 cfs for 300 acres. One of the p.d.'s on 35-2097 was in the NWNE S.24. Based on this info and on the letter from the permit holder it appears that with respect to these 300 acres a replacement well has been installed and 35-7842 provides no additional water right. (over) (New well produces only 4.58 cfs)

SIGNATURE

The field exam did document irrigation of 55 acres that have been brought under production since 35-2097 was issued. Therefore it appears that the license for 35-7842 should include only the 55 acres, with rate of flow 1.1 cfs, with the condition that ^{Lic. No.} 35-7842 when combined w/ ^{Lic. No.} 35-2097 ^{A+B} shall provide no more than 17.92 cfs"

* (4.58 cfs now produced in NW $\frac{1}{4}$ NE $\frac{1}{4}$ - 3.90 cfs previously measured from well in NW $\frac{1}{4}$ NE $\frac{1}{4}$ + 17.24 cfs = 17.92 cfs)

RECEIVED

NOV 18 1983

Department of Water Resources

Dear Mr. Tuthill, *over*

Your letter dated July 20, 1983 must have been misplaced,
I'm sorry for the delay.

And now in response to your letter dated November 10, 1983.
Question; How does the well in the sw corner relate to the well
in the northern part of the same 40 acer tract? Answer; The
well in the northern part was a gravity flow irrigation well,
it is now a domestic well for the dwelling nearby. The well in
the sw part of the same 40 acer tract is the point of diversion
that irrigates the entire N1/2 of sec. 24 TS 2S R 33 EBM.

Question; Are the wells in the area tied together in any way?
Answer; No other irrigation well is tied to any other well in
the questioned permit 35-7842 or licence 35-2097.

I hope this answers your questions. If you need any further
information please write to my new address.

RE: Permit No. 35-7842

Dear Mr. Williams:

As described in my letter dated July 20, 1983, we are currently reviewing the referenced permit prior to licensing. As indicated in that letter, we have a question about how the existing well located in the SW corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24 relates to the well in the northern part of the same 40 acre tract and to the other points of the diversion identified on the above referenced license, located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, NE $\frac{1}{4}$ SE $\frac{1}{4}$, and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24 in the same township. We need to know which of the wells is used to irrigate lands in the north half, Sec. 24, and whether the wells are tied together in any way.

To date we have received no response to our letter. If we receive no response, we must assume that the rate of flow which can be provided by the above referenced permit is that amount in excess of the original permit for 4.0 cfs. Therefore, lacking further information, the license will be issued for a rate of flow of 0.58 cfs.

If you are able to provide additional information on this subject, please do so prior to December 1, 1983 because we plan to issue the license soon after that date.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

RE: Permit No. 35-7842

Dear Mr. Williams:

As described in a letter dated June 27, 1983, sent to you from Mr. Jim Johnson of this office, we are currently in the process of reviewing the above-referenced permit for licensing. We have encountered one question which needs to be resolved before licensing can be finalized.

In our review of existing water rights, we have noted that the NW $\frac{1}{4}$, Sec. 24, Twp. 2S, Rge. 33E is covered by one existing licensed water right. License No. 35-2097 provides for 4.0 cubic feet per second for the irrigation of 260 acres within the tract. The existence of this water right was noted on the Application for Permit No. 35-2097 with the following sentence: "Supplemental filling to bring water up to full one inch per acre and to add 60 acres not covered by license No. 35-2097". Therefore, the intent of the above-referenced permit was clearly to add additional water to the existing irrigation system.

^{or 35-7842}
The question that we need to resolve relates to how the existing well located in the SW corner of the NW $\frac{1}{4}$, Sec. 24 relates to the well in the northern part of the same 40-acre tract and to the other points of diversion identified on the above-referenced license, located in the NW $\frac{1}{4}$, Sec. 19, NE $\frac{1}{4}$ SE $\frac{1}{4}$, and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24 in the same township. Which of the wells is used to irrigate lands in the NW $\frac{1}{4}$, Sec. 24? Are the wells tied together in any way?

Please submit this information to my attention by August 15, 1983, and we will continue to expedite processing of the permit.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

Douglas Williams
Rt. 5, Box 94-A
Blackfoot, ID 83221

Dear Mr. Williams:

A representative of this Department has made an examination of the works covered by your Permit No. ³⁵⁻⁷⁸⁴², and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: ^{2.40 cfs} Source: ^{groundwater}

The maximum quantity diverted shall not exceed ^{1018.7} acre feet per year.

Point(s) of diversion: ^{NWNE Sec. 24, T. 2 S., R. 33 E.}

Beneficial use: ^{Irrigation of 309 acres in N₁ Sec. 24, T. 2 S., R. 33 E.}

Priority date established: ²⁻²⁰⁻¹⁹⁷⁹

Conditions (if any): ^{This right when combined with all other rights shall provide no more than 995 afa per acre nor more than 3.5 afa per acre for the lands above.}

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

JJ:kw

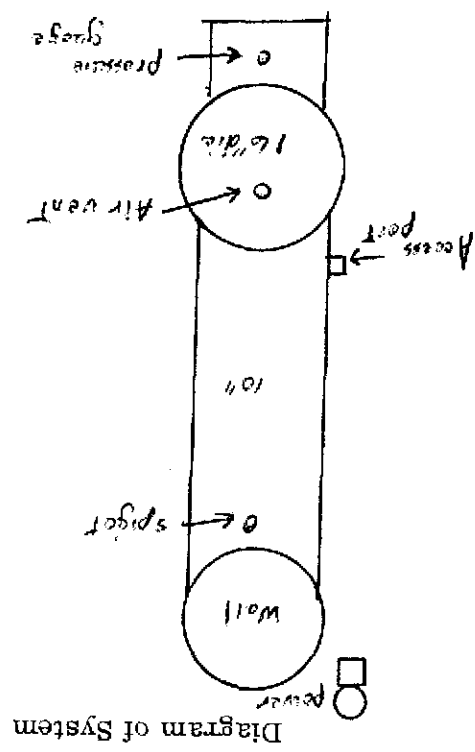

Ship

This license may need conditioning
as there was an abandoned well
in the same forty (I think it was
in the same forty, it may have been on the
line and put in the forty above) The Wellbore
indicated there was a water right on it
so you might look for a transfer.

License 35-2097A T1965

gw P/D's see attached transfer
copy

P/U see attached transfer
copy & map attached to
field exam in 35-7842

License 35-2097 was issued for 17.24 cfs from
5 different wells on 1121 acres ($17.24 \div 1121 = .0154 \text{ cfs/ac}$)
The field exam shows that the well in the
NWNE Sec 24 was measured at 3.9 cfs & is
in the NW corner of the NWNE. Transfer 1965
split this right into parts, A & B. Part B does
not overlap. On the Field exam for 35-7842,
the field examiner indicates that the well
in the NW corner of the NWNE Sec 24 has
been abandoned. Therefore we must
assume that the new well measured
at 4.58 cfs in the SW corner of the NWNE
Sec 24 was a replacement within the
same tract. However it is not clear
as to what acres each well covers.
I recommend that we limit the rights ^{ok}
when combined to .02 cfs/ac & 3.5 AFA/ac.

Re: Permit No. 35-7842

Douglas Williams
Route #3, Box 94-A
Blackfoot, Idaho 83221

Dear Mr. Williams:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Be sure to note the special condition requiring you to install an access port or other device to provide for the installation of measuring equipment by the Department. Enclosed are specifications for the installation of the access port, as well as a list of measuring device options.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

David R. Tuthill, Jr.
