CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The right to use water confirmed by this license is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with Right No. 35-2651 shall provide no more than .02 cfs per acre not more than 3.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 35-7771

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:

"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

RE: OVERLAP REVIEW

SYSTEM OVERVIEW

At the time of the field exam one well was used to irrigate the land identified under the permit. There is an existing water right which lists an different point of diversion location for irrigation of the same lands irrigated by this right. There is no information in the file stating that water from the well was being used. The field examiner only measured the well identified under this permit.

RECOMMENDED FLOW RATE

The rate identified on the permit, since it is smaller, should be listed on the license because it reflects the amount appropriated under this right, with a condition limiting the rate/acre to 0.02/acre and the volume to 3.5 acre feet per acre when combined with right No. 35-2651.

Had a transfer been filed on water right No. 35-2651 adding the well found in use by the examiner, the rate licensed under 35-2651 would have subtracted from the measured discharge. as suggested in the field examiner's report.

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

$$Q^A = (11.75" \text{ ID } \text{mainline})^2 \times 3.85 \sqrt{9.2" \text{ meter } \text{reading}} = 1612.2 \text{ gpm} \times 0.993 \text{ } \begin{matrix} \text{Correcting} \\ \text{Factor} \end{matrix} = 1600.9 \text{ gpm} \text{ or } 3.57 \text{ cfs}$$

$$Q^B = (11.75" \text{ ID})^2 \times 3.85 \sqrt{15" \text{ meter } \text{reading}} = 2058.6 \text{ gpm} \times 0.956 \text{ } \begin{matrix} \text{Correcting} \\ \text{Factor} \end{matrix} = 1968.1 \text{ gpm} \text{ or } 4.39 \text{ cfs}$$

License 35-2651 gives 0.0123 cfs/acre.

Common acreage is in N1/2 of Section 3. That total is

231 acres found under 35-7771. $231 \times 0.0123 \text{ cfs} = 2.84 \text{ cfs}$ Total 7.96 cfs

Total acres found under 35-7771 is 482. Since permit asked for an additive quantity to bring acreage up to 0.02 cfs/acre I can only license for an amount over + above the 2.84 cfs from 35-2651. $7.96 \text{ cfs} \text{ minus } 2.84 \text{ cfs} = 5.12 \text{ cfs}$

b) Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 482 \text{ acres} \times 3.5 \text{ af/a} = 1687 \text{ af}$$

$$V_{D.R.} = [\text{Diversión Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 5.12 \text{ cfs} \times 214 \times 1.9835 = 2173$$

This office acknowledges receipt of the statement of beneficial use postcards for the above referenced permits.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you or a representative may show him the system.

Re: Permit No. 35-7767

I'm returning the statement of beneficial use for this permit since it is the property of Laron Hansen. Also, the statement of beneficial use has already been submitted by Mr. Hansen and the permit is in good standing.

If I can be of further assistance, please feel free to contact me.

ATTN: Rita Fleck

Dear Rita:

Enclosed please find one postcard referencing Water Permit Number 35-7768, which evidences completion of the irrigation project described under that permit number. This card may be a duplicate, and if so, please disregard.

On December 27, 1982, this Association mailed to you Water Permit Completion postcards referencing the following permit numbers:

35-7778
35-7776
35-7777
35-7773
35-7775
35-7772
35-7771
35-7774

Your correspondence dated December 30, 1982, says in part we have 60 days to make a statement to you as to the status of the above permit numbers. Since I cannot determine if you have ever received our Water Permit Completion postcards, which were mailed on the 27th., kindly acknowledge receipt of the cards, if, in fact, they have been received and if they have not been received, please advise, also.

Thank you.

Sincerely yours,

Arnold Seeley
Vice President

Gentlemen:

Re: Permit No. 35-7771

PROOF DUE NOTICE

One of the conditions of approval of your water permit no. 35-7771 was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1983. (See last page of your approved permit or your last approved extension request). Enclosed is a postcard which may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above mentioned date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the regional office nearest to you.

Sincerely,

DAVID R. TUTHILL JR., P. E.

Gentlemen:

listed

Your approved copy of Application for Permit No. above is enclosed and we direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,
