RE: Overlap from 35-7473
DATE: November 15, 1977

*file in
35-7755*

On November 15, 1977, I contacted Stanley Williams by telephone to resolve the conflict created by Mr. Williams' approved permit No. 35-7473 and a new application filed by Mr. Williams' neighbor, David T. &/or Margene C. Rich. This application and the existing permit constituted an overfiling on 15 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17, T. 3S, R. 34E, B.M., Bingham County. The reason behind the apparent overfiling may be explained as follows. In consideration for removal of an irrigation ditch across the SW $\frac{1}{4}$ SW $\frac{1}{4}$, owned by D. C. Rich, applicant has agreed to furnish from the proposed well to D. C. Rich for three years, 15 miner's inches or 0.30 c.f.s. of water for irrigation of the westerly 15 acres of the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17.

Over the telephone, Mr. Williams said that in 1976 his three-year contract to supply water to Mr. Rich had terminated. Therefore, the examiner should not license these 15 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17, under Mr. Williams' permit but later license this acreage to Mr. Rich pending approval of his application for permit and subsequent proof of beneficial use. In reality this should not constitute an overfiling.

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Dear Mr. & Mrs. Rich:

RE: Permit No. 34⁵-7755

We have discussed the matter of licensing this permit with Harry Gambles of the Federal Land Bank in Burley.

It appears that a field examination has been made of your permit. However, proof of beneficial use has not been submitted. I believe it is also necessary for you to submit proof to finalize your loan. We are enclosing a proof of beneficial use card to be completed and returned to this office.

If you have any questions, please contact us.

Sincerely,

JAN GROVER

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

RE: Overlap from 35-7473
DATE: November 15, 1977

On November 15, 1977, I contacted Stanley Williams by telephone to resolve the conflict created by Mr. Williams' approved permit No. 35-7473 and a new application filed by Mr. Williams' neighbor, David T. &/or Margene C. Rich. This application and the existing permit constituted an overfiling on 15 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17, T. 3S, R. 34E, B.M., Bingham County. The reason behind the apparent overfiling may be explained as follows. In consideration for removal of an irrigation ditch across the SW $\frac{1}{4}$ SW $\frac{1}{4}$, owned by D. C. Rich, applicant has agreed to furnish from the proposed well to D. C. Rich for three years, 15 miner's inches or 0.30 c.f.s. of water for irrigation of the westerly 15 acres of the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17.

Over the telephone, Mr. Williams said that in 1976 his three-year contract to supply water to Mr. Rich had terminated. Therefore, the examiner should not license these 15 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17, under Mr. Williams' permit but later license this acreage to Mr. Rich pending approval of his application for permit and subsequent proof of beneficial use. In reality this should not constitute an overfiling.
