WATER RIGHT LICENSE

License of Water Right No. 35-7663 Priority January 31, 1977 Amount 1.3 cfs

THIS IS TO CERTIFY, that SOIL CONSERVATION SERVICE PLANT MATERIALS CENTER
of Aberdeen, Idaho, has complied with the terms and conditions of Permit
No. 35-7663 issued pursuant to Application for Permit dated January 31, 1977,
and has submitted proof to the Department of Water Resources on March 15, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.6 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u> at <u>1.3</u> cfs and	<u>227.5</u> acre feet	
	from _____ to _____ at _____ cfs and		
	from _____ to _____ at _____ cfs and		
	(both dates inclusive)		

Subject, however, to the condition that no more than 1.3 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
227.5 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 12,

Gentlemen:

One of the conditions of approval of your water Permit No. 35-7663 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

DEVICE REQUIREMENT FOR PERMIT NO. **35-7663**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

RE: Application for Permit No. 35-7663

Mr. Walter B. Rumsey
State Resource Conservationist
Soil Conservation Service
Room 345, 304 North 8th Street
Boise, Idaho 83702

Dear Mr. Rumsey:

We have commenced the processing of the application for permit you submitted on behalf of the Plant Materials Center in Aberdeen, Idaho.

However, in our review of this application we find the quantity you have applied for exceeds the statutory maximum appropriation of one miners inch per acre. The department can accept applications requesting to appropriate more than one inch per acre if the applicant can provide adequate justification that the additional water will be required.

We will complete the processing of your application on February 28, 1977, at which time it will be ready for final Departmental action. If, at that time, acceptable justification for the 2.10 c.f.s. has not been received the quantity on the application will be reduced to 1.36 c.f.s.

Very truly yours,

RONALD D. CARLSON
