Dear Mr. Gamble:

Enclosed is a revised Amendment of Permit which you should sign and return to this office. No fee is required.

We found that the revision was necessary because we had not properly taken into account the effect of your existing right, No. 35-2214. We should have removed the lands already covered by that right from this right.

We apologize for any inconvenience this may have caused you. You will be receiving your license shortly after you return the amendment.

If you have any questions, please let us know.

Sincerely,

JIM JOHNSON

I've looked at the overlap on this and think that 163^{OK} acres should be licensed for ^{71?} 1.92 cfs. (This is the Dunn method) 1.50 It really is the only method that makes sense, particularly after looking at Allen Merritt's recent transfer.

Blackfoot, Idaho 83221

Dear Mr. Gamble:

As you recall in April of this year I contacted you concerning a conflict that exists between this application and License No. 35-2214. Your application and this license both cover the N $\frac{1}{2}$ of Section 30. Because of a recording error we were unable to detect this overlap at the time you were in this office, and as a result it now appears that this application is unnecessary.

Since we can not approve the application because of the overlap, and because you have not responded to our letter of April 23, 1976, I can only assume that you have no further interest in this application and wish for it to be voided in our records. I will submit your application to our Boise Office with the recommendation that it be voided on the first of September of this year. Therefore, if you wish to continue this application or have further questions, please contact this office before that date.

Very truly yours,

RONALD D. CARLSON

Dear Mr. Gamble:

The Department is presently processing your application for permit No. 35-7598, application for transfer No. 35-2295, and your claim to a water right No. 35-4048. In further checking our records, we find that there is an existing license No. 35-2214 covering the N₂s of Section 30. Because we were unaware of this license and it was not properly recorded in our records at the time you inquired about your water rights, there are some errors that now need to be corrected in your application and claim to a water right.

If you are planning a trip to Idaho Falls in the near future, we request that you stop in our office and again discuss your water rights and the changes that need to be made to get everything in order.

Very truly yours,

RONALD D. CARLSON
Supervisor,
Eastern Region
