WATER RIGHT LICENSE

License of Water Right No. 35-7518 Priority June 26, 1975 Amount 3.0 cfs

THIS IS TO CERTIFY, that STROSCHEIN RANCHES, INC. % Tom Stroschein
of Sterling, Idaho, has complied with the terms and conditions of Permit
No. 35-7518 issued pursuant to Application for Permit dated June 26, 1975,
and has submitted proof to the Department of Water Resources on June 2, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 6.22 cfs of water from an unnamed drain,
tributary to Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 35-7518 on August 9, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 3.0 cfs Source: unnamed drain

The maximum quantity diverted shall not exceed 525 acre feet per
year.

Point of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19, Twp. 4S, Rge. 32E, B.M.

Beneficial use: Irrigation of 150 acres within the SW $\frac{1}{4}$, Sec. 19,
Twp. 4S, Rge. 32E, B.M.

Priority date established: June 26, 1975

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

Dear Mr. Stroschien:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Idaho Falls.

RE: Application for Permit No. 35-7518

Mr. Merland Nelson
Sterling,
Idaho 83279

Dear Mr. Nelson:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON
District Engineer

Stroschein Ranches, Inc.
Sterling, Idaho 83279

Dear Mr. Stroschein:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 35-7518. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

RONALD D. CARLSON
District Engineer

Gentlemen:

I wish to protest the application filed under Application No. 35-7518 issued to Stroschein Ranches because in early spring when I need to irrigate there isn't sufficient water for my use.

This drain flows through the Stroschein property before reaching my point of diversion. I have a 1950 priority for 1.0 c.f.s. out of this unnamed drain. Later in the season when irrigation gets underway in the area there is plenty of water.
