RE: Application for Permit No. 35-7508

Mr. John C. Harrison
Rt. #1
Pingree, Idaho 83262

Dear Mr. Harrison:

Your application for permit No. 35-7508 has been processed and is ready for final action. However, in checking our records we find that License No. 35-2065 already shows water appurtenant to the land you requested to irrigate under this new appropriation. Since Section 42-220, Idaho Code specifically limits the amount of water to one miners inch per acre, the $4\frac{1}{2}$ acres ~~and~~, according to our records, have water in excess of this amount.

It is our understanding that the water rights were withheld from your property in your sales contract. If this is the case, please supply us with a copy of this agreement. If the water rights were not withheld, it will be necessary for you to withdraw this application for permit and make an application to transfer your proportional share of the water previously developed for this land under License No. 35-2065.

Please let us know what action you intend to take before the end of the month. If you have any questions, please feel free to contact me.

Very truly yours,

Dear Mr. & Mrs. Harrison:

We must return your application for permit because the statutory filing fee of \$10.00 for the 0.12 cubic feet per second of water requested was not included.

We have taken the liberty of partially completing an application form. Please check it for correctness and sign it exactly as the name listed in Item 1. Also, complete Item 9c, stating what type of arrangement exists between you and Mr. Thunster which gives you a right-of-way for access to the well. If a written agreement exists, you should also include a copy of this with your application.

If you have any questions, please feel free to contact this office.

Very truly yours,

LOREN O. HOLMES
Assistant to the
District Engineer
