Dear Mr. Carter:

Personnel from this office have attempted to complete the field examination necessary to finalize the water permit and collect the data required for the licensing of your well.

A measuring device of a type approved by this Department has not been installed at the point of diversion, and because of this non-compliance the priority date that you have established for this ground-water source may be in jeopardy.

This office will hold the field report until April 30, 1977. If at that time we have not received notification that the measuring device has been installed, we will forward our findings to the State Office for final action. If the measuring device has been installed, please contact me. to set up an appointment to do a re-exam.

Compliance with the conditions on your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please contact me.

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

Dear Mr. Carter:

One of the conditions of approval of your water Permit No. 35-7470 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
