			SWSW 40	SESW 40			240

Total number of acres irrigated: 1160

CONDITIONS/REMARKS:

1. The right to the use of the water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho law.
4. The rate of diversion and annual volume under this right shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water when all rights appurtenant to the place of use from the same source are considered cumulatively.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING DEVICE REQUIREMENT FOR PERMIT NO. 35-7410

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

INTER-DEPARTMENT MEMO — 1

FROM Tim L.

DATE 2-1-88

TO Felo

SUBJECT Katy Walker & I looked at different sets of U2-Flights for 6/80 in question for years 1976, '77 & '80. Photos are inconclusive in determining irrigation in '76 & '77 but definitely conclusive for year '80. In that year, there was irrigation. I informed Eric @ Eastern to speak w/ Skip Jones & see if Skip can remember why the acreage was omitted from the final sum. We will wait to hear from Skip or Eric before proceeding further.

Tim

SIGNATURE

Tim

Pull the other files related to this development. I don't feel the land in question was mapped as suggested.

Let's sent up a meeting to go over this. Jim

INTER-DEPARTMENT MEMO — 1

FROM Tim

DATE 1/17/89

TO Jim

SUBJECT License 35-7410

Per your request, I looked at this license and found that the 37 acres in NENW of sec 11, T4N, R36E. as described in letter was not included in the field exam but was listed on the original application for Permit. It appears that the field examiner was consistent in leaving this acreage off the exam. There is an aerial along w/ field exam - acreage in NENW of sec 11 was not included ~~of in Boundaries~~ or highlighted by examiner. This aerial is undated & not clear as to whether crop existed. We have received info from ASCS that a wheat crop existed in 1976.

SIGNATURE

I have a question for you on envelopes & CFs - for this RB - after you review it.

State House Mail
Boise, Idaho 83720

To whom it may concern:

While filing our water right claims in the Snake River Adjudication we discovered a parcel of land we irrigate was omitted from one of our licensed rights. The parcel is the NE1/4 NW1/4 Sec. 11 T4N R36E. There are 37 acres within this parcel that are irrigated.

This parcel was included under permit ~~35-7140~~ 35-7410, and was developed along with the other ground under this permit. Apparently the field agent from the department omitted this acreage by mistake. Please find enclosed a statement from the ASCS showing that this parcel was irrigated by June 1, 1979.

Would you please inform me as to what I need to do to correct this situation.

35-7410

Enclosure

MICROFILMED
JUL 06 1987

Overlap Review - 35-7410

Rt. 35-2666 - covers 680 acres of this land
issued for 1.68 cfs/1125 ac.
= 0.0014933 cfs/ac.
× 680
1.02 cfs for this land

Rt. 35-2901 - covers same 680 acres of this land as Rt. 35-2666
issued for 4.66 cfs/680 ac.
= 0.0068529 cfs/ac.

System as now used under this right: 12.61 cfs/1160 ac.
= 0.0108707 cfs/acre

Lands not licensed previously → 480 ac. × 0.0108707 = 5.22 cfs

Lands previously licensed →
0.0014933 + 0.0068529 = 0.0083462
0.0108707 on 480
− 0.0083462 on 680
0.0025245 × 680 = 1.72 cfs

MICROFILMED
JUL 06 1981

Allow 5.22 cfs
+ 1.72 cfs
6.94 cfs — will exceed capacity of system when all

rights are combined — use this condition:

(3) "The maximum combined rate of diversion from the well located in the NESE, Section 11, shall not exceed 5.71 cfs when all rights are combined."

Also use R38 (to specify water is evenly distributed over lands shown on license).
and R30 for p/u overlaps.

V = 1160 x 3.5 = 4060.0 AFA
V = ~~5.71~~ 12.61 cfs x 1.9835 x 214 = 5352.6 AFA

Use volume of 4060.0 AFA - when rights are combined...

MICROFILMED
JUL 06 1987

tw
6/15/87

(4) condition: The maximum combined annual volume of water under this Rt. and Rts. 35-2666 and 35-2901 shall not exceed 4060.0 acre feet per annum.

Re: Permit No. 35-7410

Dear Mr. Jensen:

During July of 1986, you received a rough-draft license, on behalf of Miller Farms, for Permit No. 35-7410. Shortly thereafter, you spoke with a Department employee in the Eastern Regional Office and expressed dissatisfaction about the flow rate measured.

After learning about your concern, I attempted several times to reach you at home, and twice left messages for you to call me. I have not received a response.

It is the examiner's belief that no further increase in flow can be measured unless you re-locate the flow measurement ports used for the previous measurement. If you desire that the Department re-examine your irrigation system, the Department is required to charge a fee for conducting the examination. I have included a fee schedule for your reference.

If you do not request a re-examination, there are still some unresolved questions regarding the apportionment of the water being pumped. Personnel at Eastern Region could adequately address those questions. I would also be happy to attempt to resolve the questions with you.

Should you fail to respond at all to this letter, the water will be distributed over the acreage as evenly as possible.

Sincerely,

Gary Spackman

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Sincerely,

L. Glen Saxton

L. GLEN SAXTON

RE: Permit No. 35-7410

Miller Farms, Inc.
Roberts,
Idaho 83444

Gentlemen:

We acknowledge receipt of the proof of beneficial use card submitted for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questinns regarding the field examination, please contact this office.

Very truly yours,

COLLEEN WRAY
Sr. Secretary

CERTIFIED MAIL

March 30, 1979

Re: Permit No. 35-7410

Miller Farms, Inc.
Roberts,
Idaho 83444

Gentlemen:

One of the conditions of approval of your water Permit No. 35-7410 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Re: Permit No. 35-7410

Miller Farms, Inc.
Roberts,
Idaho 83444

Dear Sirs:

Enclosed is a copy of your approved Application for Permit No. 35-7410. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Assistant Director
