Dear Mr. Van Orden:

A representative of this Department has made an examination of the works covered by your Permit No. 35-7382 and found the following:

Quantity of water diverted: 1.34 cfs Source: ground water

Amount of water that can be recognized as beneficially used under Idaho law: 1.34 cfs

The maximum quantity diverted shall not exceed 343 acre feet, or 3.5 af per acre, per year.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 19, Twp. 3 S, Rge. 34 E, B. M.

Beneficial use: Irrigation of 98 acres within the W $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 19, Twp. 3 S, Rge. 34 E, B. M.

Priority date established: January 30, 1974

As you are aware the actual range is 34 E, whereas your permit lists Rge. 33 E, B. M. Therefore, it will be necessary to amend the permit before a water right license is issued. Enclosed is a partially completed application for amendment for your use in this matter.

Please sign the application and return it to this office along with a \$10.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Mr. Van Orden:

We have received a well drillers report indicating that a well was drilled for you in the SWANEX, Sec. 19, T. 3S, R. 33E, Bingham County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions, please do not hesitate to contact this office.

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

Dear Mr. Van Order:

One of the conditions of approval of your water Permit No. 35-7382 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
