Dear Mr. McLaughlin:

We have received your letter of March 12, 1979, in connection with the licensing of Permit No. 35-7359, Jerd's, Inc.

This permit was licensed on February 26, 1979, for 3.11 cfs. In your letter you stated the amount being used now at this location is 5 cfs. This system was measured on July 13, 1977, and a measurement of 3.11 cfs obtained by our field examiner. The license can only be issued for the amount found at the time of the field examination. Also, this permit was originally applied for in the amount of 3.28 cfs. In order for Jerd's, Inc. to have a right to their additional cfs they are now using, a new permit must be applied for since once a permit is approved the amount of water cannot be increased as this would constitute an expansion of the water right.

We are enclosing an Application for Permit form with instructions for your use in filing on the additional cfs.

Sincerely,

JAN GROVER
Water Rights Supervisor

ATTENTION: Jan Grover, Water Rights Supervisor

Dear Jan:

This is to advise you that the address of Jerd's, Inc. is Post Office Box 580, Mountain Home, Idaho 83647. Unfortunately your letter of January 29, 1979, regarding Permit No. 35-7359, was diverted to the wrong address at 939 West Lander, Pocatello, Idaho. This letter was very critical because it allocated 3.11 cfs, and it was absolutely necessary for us to respond to this within ten days and due to its being misaddressed we did not receive it until February 28, 1979. The letter had been opened by some unauthorized person and had been held this length of time without our having been able to respond. We presently need 5 cfs at that location.

Please advise me of the manner of correcting this and moving to amend the license.

Sincerely yours,

Robert F. McLaughlin

Department of Water Resources

Dear Sirs:

Application was made for Jerd's, Inc. for a ground water well and all of the necessary steps have been taken to complete the application for permit, which was approved, but as yet we have not received the final approval or license from the department. I would appreciate knowing what else needs to be done to insure the issuance of a license on Permit No. 35 7359. A measuring device approved by the department has been permanently installed and is a part of the diverting works. Proof of Application has been filed.

Please advise me if we need to take any further action to obtain final approval on the license.

Sincerely yours,

Robert F. McLaughlin
