Dear Mr. Giesbrecht:

One of the conditions of approval of your water Permit No. 35-7345 & 35-7346 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Mr. Richard H. Giesbrecht
P. O. Box 126
Aberdeen, ID 83210

Dear Mr. Giesbrecht:

We are returning your application for permit to appropriate ground water and your check No. 92-141 in the amount of \$25.00, because your application was not signed. A review of the application you submitted indicated that the information in Item 3a and 3a does not agree with the plat of Item 11. Based upon a review of several maps available to me, I have prepared another application for permit which I believe to correctly describe your proposed project. Please review this application, make any changes necessary, sign it on page 3 exactly as your name appears in Item 1 and return it to this office with the required filing fee for processing.

Also note that in Item 4 I have changed the rate of diversion to 0.82 c.f.s. because the Idaho Code limits the rate of diversion for irrigation purposes to .02 c.f.s. per acre unless a higher rate can be justified by very coarse soils or unusual irrigation systems. If the requested rate exceeds this limitation, you are required to supply us with written justification from an soil expert.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

NORMAN C. YOUNG
District Engineer
