License of Water Right No. 35-7312 Priority July 19, 1973 Amount 2.99 cfs

THIS IS TO CERTIFY, that Eastern Idaho Production Credit Association
of Blackfoot, Idaho, has complied with the terms and conditions of Permit
No. 35-7312 issued pursuant to Application for Permit dated July 19, 1973,
and has submitted proof to the Department of Water Resources on August 28, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.99 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>2.99</u> cfs and	<u>833.0</u> acre feet
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 2.99 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
833.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14,

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
 - b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
 - c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.
- A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.

Dear Permit Holder(s):

A representative of this Department made an examination of the works covered by your Permit No. 35-7312 and has found the following:

Amount of water that can be recognized as beneficially used
under Idaho law: 2.99 cfs Source: groundwater

The maximum quantity diverted shall not exceed 833.0 acre feet
per year.

Point(s) of diversion: SWSE, Sec. 14, Twp 1S, Rge 32E

Beneficial Use: Irrigation of 238 acres within SW1/4, SE1/4,
Sec. 14, Twp 1S, Rge 32E

Priority date established: July 19, 1973

Conditions (if any): A measuring device of a type approved by
this Department shall be maintained as a part of the diverting
works.

If you do not concur with these findings, please contact us within 10 days;
otherwise a water license will be issued as set forth above.

Gentlemen:

We acknowledge receipt of the assignments conveying Permit No's. 35-7161, 35-7162, 35-7310, 35-7311 and 35-7312 to you. The assignments have been recorded and the Department's records have been changed.

We also acknowledge receipt of the assignments for License No's. 35-7092, 35-7093 and 35-7095. However, there is no procedure for changing the names on licenses since the water right license is appurtenant to the land. These documents have been entered in the license file to show your interest in the license.

Gentlemen:

We acknowledge receipt of the affidavits submitted as proof of beneficial use for the above referenced permits.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Gentlemen:

We are herewith returning the proof affidavit submitted in connection with the above referenced permits.

If you will recall, these permits were assigned to Metropolitan Life Insurance Company in February, 1974. Therefore, the permit holder of record, Metropolitan Life, must execute the affidavits and make proof.

We are also enclosing 3 blank proof forms in order that you might complete them and forward to Metropolitan Life for signature of a legal representative of the Company. Since proof is due on or before September 1, 1975, it is important that the affidavits be returned by Metropolitan Life as soon as possible.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. ~~35-7310-35-7312~~ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Beeler:

This office has recently received proof of beneficial use affidavits and/or assignments in connection with the above referenced permits. The status of these permits is as follows:

35-7091 & 35-7094 We are herewith returning the proof affidavits as these permits are still in the name of John Houtman and we, therefore, need an assignment from Mr. Houtman before Placerton's proof can be accepted. A partially completed assignment form is attached to the proofs for your use.

35-7092, 35-7093 & 35-7095 We have received the assignments from John Houtman to Placerton and also Placerton's assignments conveying these permits to Metropolitan Life Insurance Company. The proof affidavits under these permits are being processed and a letter of acknowledgement will be directed to Metropolitan Life.

35-7161 & 35-7162 We are returning the assignments of John Houtman to Placerton and also Placerton's assignments to Metropolitan Life. Please be advised that Mr. Houtman assigned these permits to Connecticut Mutual Life Insurance Co. in February, 1971. Therefore, Connecticut Mutual is the permit holder of record and any assignments will have to be executed by Connecticut Mutual.

Dear Mr. Young:

Thank you for your letter of June 27th. Accordingly, we have retyped the Applications and hopefully have all of the information which is required.

We are sending the check for \$230.00, which is for the Application fees of \$55.00, \$75.00 and \$85.00. The \$15.00 is for the fee due on Permit No. 35-~~4~~722. This matter was discussed with Bobby D. Fleenor, in the Boise Department, and he indicated that the only reason that the license had not issued on this particular Permit was that the \$15.00 fee was due. Accordingly, this fee is submitted herewith and is the reason for the check being in the amount of \$230.00. In this regard, we also have a note that there is an additional use granted as Permit No. 35-7095. These both apply to a well which, from our information, is on the W $\frac{1}{2}$ of Section 25, T. 1 South, Range 33 East. If more information is needed please advise me. If you have any question regarding these re-submitted Applications it would be appreciated if you would call me on the phone and review them so that we may expedite the completion of these Applications.

Thank you most kindly for your services.

Dear Mr. Barrett:

We are returning the three applications for permit to appropriate ground water that you submitted on behalf of Placerton, Inc. for approval and your check No. 92-63 in the amount of \$230.00. There are a number of items that need to be clarified before the applications are acceptable for processing and the filing fee for the three applications appears to be only \$215.00. This fee assumes one application for 4.0 c.f.s. (\$55.00), one application for 5.5 c.f.s. (\$75.00), and one application for 6.4 c.f.s. (\$85.00). The following clarifications should be made:

APPLICATION FOR $W\frac{1}{2}$ of SECTION 22

1. The point of diversion must be listed in Item 3a to the nearest 40 acre subdivision. If the well is located such that it is difficult to be sure which 40 acre subdivision it is located in, list each of the subdivisions and indicate that there is only one well located near the intersection of the subdivision.
2. The quantity of water to be appropriated should be listed in the first blank of Item 4. Also 4 cubic feet per acre or 2552 g.p.m. are not equivalents. In Item 4 the irrigation season should be listed to the nearest day. This Department normally considers it to be from Apr. 1 to Nov. 1.
3. Please complete Items 6 and 7. Submission of proof of beneficial use should be at least one year, even though the system is completed.
4. In the remarks you have indicated that this application replaces No. 35-7069. The place of use as listed in Item 8 does not exactly agree with that listed in the original permit. Should it?
5. Please complete the plat of Item 11 by clarifying the scale and shading the location of the place of use. Also, if possible, show the location of the well to the nearest 40 acre subdivision.

Mr. Edward J. Berrett
Page 2
June 27, 1973

APPLICATION FOR E $\frac{1}{2}$ OF SECTION 15

1. Same as Item 1_j on page 1.
2. Please clarify the irrigation season to the nearest day.
3. Same as Item 3 on page 1.
4. The acreage to be irrigated in each 40 acre subdivision should be listed in Item 8b.
5. Same as Item 5 on page 1.

APPLICATION FOR S $\frac{1}{2}$ OF SECTION 14

1. Same as Item 1 above.
2. The quantity of water to be appropriated should be listed in the first blank of Item 4. Also 5.5 c.f.s. or 1800 g.p.m. are not equivalents. In Item 4 the irrigation season should be listed to the nearest day. This Department normally considers it to be from Apr. 1 to Nov. 1.
3. Same as Item 3 above.
4. Same as Item 5 on page 1.

Please make the necessary correction to the applications and return to this office with the appropriate filing fee and we will be most happy to continue processing them.
