RE: Permits No. 35-7223 and 35-7297

Mr. Jerry T. Twiggs
Rt. #2, Box 275
Blackfoot, Idaho 83221

Dear Mr. Twiggs:

Personnel from this office have attempted to complete the field examinations necessary to finalize the water permits and collect data required for the licensing of the wells.

Measuring devices of a type approved by this Department have not been installed at the points of diversion, and because of this non-compliance the priority date that you have established for these ground-water sources may be in jeopardy.

This office will hold the field reports until May 1, 1977. If at that time we have not received notification that the measuring devices have been purchased and/or installed, we will forward our findings to the State Office for final action. If the measuring devices have been installed, please contact me to set up an appointment to do a re-exam.

Compliance with the conditions on your permits is the only way a license can be issued pursuant to the Idaho Code for your water right developments and the land included under the above referenced permits.

If you have any questions concerning this matter, please contact me.

Very truly yours,

ANTHONY R. KOZLOWSKI

Dear Mr. Twiggs:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.
