A G R E E M E N T

THIS AGREEMENT, Made this 5th day of May, 1967, by and between LAMAR WHYTE of Springfield, Bingham County, Idaho, party of the first part, and the undersigned property owners, all being residents of or near the Townsite of Springfield in Bingham County, Idaho, parties of the second part, witnesseth:

WHEREAS, the party of the first part is the owner of the South Half of the Southwest Quarter of Section 11 in Township 4 South, Range 32, East of the Boise Meridian in Bingham County, Idaho, through which a lateral ditch now extends which is used by the parties of the second part to convey irrigation water from the Aberdeen-Springfield Canal to their respective premises in or near the Townsite of Springfield; and

WHEREAS, the party of the first part desires to destroy said lateral ditch and to provide a new source of water supply for the use of the second parties;

NOW, THEREFORE, IT IS HEREBY MUTUALLY AGREED That the party of the first part will drill an irrigation well on the Townsite of Springfield at a point which will provide water to the ditch system of the second parties; that he will construct a well and equip the same with a new electric motor and turbine pump and connect the same with the electric power so as to provide to the second parties not less than thirty (30) miner's inches of water for their ditch system, all at his own cost and expense; that when the said new irrigation works are completed and a filing therefor has been completed with the Department of Reclamation of the State of Idaho the parties of the second part will accept and use the said irrigation well, pump and water right therefor as a source of irrigation water for their respective properties and will thereafter assume all

cost of repair, maintenance and upkeep thereof and that the party of the first part shall thereupon be entitled to destroy and remove the said lateral ditch extending through his premises as aforesaid.

IT IS FURTHER HEREBY AGREED That the party of the first part will pay all costs of establishing the water rights of the second parties from the said well by appropriate proceedings before the State Department of Reclamation and upon completion thereof the second parties will assign and convey to the first party their respective water rights in the Aberdeen-Springfield Canal system.

IN WITNESS WHEREOF, the parties have hereunto set their hands the day and year first above written.

Dear Sirs,

RE: License No. 35-7291

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

Dear Sirs,

RE: Permit No. 35-7291

In a recent licensing review of the above referenced water right, our field examiner has recommended that an Assignment of Permit be completed before this Permit is licensed.

In Idaho, a water right which is in permit stage is considered personal property and can only be acquired when the permit holder assigns all or part of his interest. After the water right is licensed it is considered real property and is acquired when the property to which the water right is appurtenant to is purchased.

I have enclosed an Assignment of Permit for your convenience. Please contact W. Lamar Whyte and make arrangements for this permit to be assigned. If for some unforeseen reason this is not possible and I have not heard from you in 15 days, our office will proceed in licensing this right under Mr. Whyte's name, at which time the water right will become real property and be acquired as I have explained above.

If you have any questions concerning this matter, please feel free to contact me at 334-4123.

Sincerely,

ROBYN HAMPE
Chief Clerk

Dear Mr. Whyte:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Sincerely,

D. Darlene Reich
