License of Water Right No. 35-7263 Priority December 14, 1972 Amount 4.47 cfs

THIS IS TO CERTIFY, that LaVal Whitehead

of Blackfoot, Idaho, has complied with the terms and conditions of Permit No. 35-7263 issued pursuant to Application for Permit dated November 15, 1972, and has submitted proof to the Department of Water Resources on January 30, 1978, that he has applied water to a beneficial use, an examination by the Department indicates that the works have a capacity for the diversion of 4.47 cfs of water from a groundwater source, tributary to _____, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from April 1 to November 1	at 4.47 cfs and	1036.0 acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 4.47 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 1036.0 acre feet per year, said waters to be diverted within the SE¼NW¼, Section 2, Twp. 2S, Rge. 35E in the County of Bingham

Description and location of place of use:

Dear Mr. Whitehead:

Thank you for returning the licensing amendment for Permit No. 35-7263. We cannot, however, complete the license process until an assignment of permit is received which assigns permit ownership from Mr. and Mrs. Brinn to you. This is required because in Idaho a water permit is considered personal property and is not conveyed in the sale of land unless it is identified in the contract of sale.

Therefore, if your contract does show the permit being sold with the farm there please provide us a copy. If it does not then have Mr. and Mrs. Brinn sign the enclosed assignment form.

We will hold your check and amendment here until January 10, 1982. If we have not heard from you by then, we will have no alternative but to cancel the permit.

If you have any questions or if I can be of any assistance, please let me know.

Dear Mr. and MRs. Brinn:

A representative of this Department made an examination of the works covered by your Permit No. 35-7263 and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 4.47 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1036.0 acre feet per year.

Point of diversion: SE¼NW¼, Sec. 2, Twp. 2S, Rge. 35E, Bingham County

Beneficial use: Irrigation of 296 acres within the W½, Sec. 2, Twp. 2S, Rge. 35E

Priority date established: December 14, 1972 (late proof)

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Dear Mr. & Mrs. Brinn:

One of the conditions of approval of your water Permit No. 35-7263 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: After two failures of getting correspondence from Mr. Whitehead in regard to filing an application on the log submitted by John Carman and drilled by B. Wray, I called "Val" Whitehead and talked to his wife. She informed me that the well was drilled on his aunts place. A permit No. 35-7263, has been filed in the name of Edward and Edith Brinn for a well located in the SW¼NW¼, Sec. 2, T. 2S, R. 35E. She did not know of any other well on the property. Whitehead is leasing and farming the W½, Sec. 2, T. 2S, R. 35E from Brinn.

Evidently, the location on the well log is wrong. The well drillers report has been changed to correspond with the permit.

Dear Mr. Whitehead:

We have received a well drillers report indicating that a well was drilled for you in the NW¼SW¼, Sec. 2, T. 2S, R. 35E, B.M., Bingham County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

Very truly yours,

Dear Mr. Furchner:

The application for permit that you submitted on behalf of Edward and Edith Brinn has been forwarded to this office for processing.

We find that there are several changes that will need to be made before processing can begin, and we are therefore returning the application and check No. 92-63 in the amount of $50 to you.

1. Your signature on page three must be accompanied by a power of attorney signed by both of the applicants.

2. The source of supply has been changed to ground water.

3. The Department normally considers the irrigation season for the Blackfoot area to be April 1 to November 1. Either reduce the requested period to this, or provide us with justification for the later irrigation season.

4. The statutory filing fee for 6.4 c.f.s. is $85.

Please make the necessary changes, return the application to this office with the proper filing fee, and we will be happy to continue processing.

Very truly yours,

NORMAN C. YOUNG
District Engineer
