Dear Mr. Reed:

On October 28, 1992, I forwarded to you an Application for Amendment so that you could amend your water right to correspond with the findings of the Department's field examiner. As you are aware, our Eastern Region office has found that the above referenced water right was licensed in error. An amendment is necessary to correct the point of diversion, and place of use(s), and corresponding irrigated acreage. The license you received in error in 1980 does not apply to the property you own.

As of this date, I have not received the amendment. If I do not receive it within fifteen (15) days, I will assume you no longer have any interest in the permit and I will have to begin cancellation proceedings. Enclosed for your convenience is another amendment form in the event the first one was misplaced. Please review the amendment, and if you agree, sign and return the amendment to me within the 15-day period.

If you have any questions, please feel free to contact me directly at 327-7943.

RE: Water Right 35-07224

Dear Mr. Reed:

As you are aware, our Eastern Region office has found that the above referenced right was licensed in error. The legal descriptions provided on the original application were all in error regarding the correct Township. When the field examination was done in 1978, the system examined was the property identified by the legal descriptions in T03S and not the property you owned in T02S.

Other information provided on the application and the fact that the property in T03S is owned by the Fort Hall Indian Reservation confirms that this was a simple error that was compounded by the subsequent field exam.

The region office has conducted a re-examination of the correct system and property on 10-08-92 in order to reflect the true place of use, point of diversion and diversion rate. In order to correct this License, an Amended License will be issued.

The Amended License will reflect the recent findings of the examiner and correct the legal descriptions through the enclosed Licensing Amendment. Please review the amendment carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

E. NARRATIVE/REMARKS/COMMENTS

- This Beneficial Use Field Report is an amended exam to -
- reflect License No. 35-07224. -
- The original exam was performed in 1978 by Tony Kozlowski. -
- In 1978 it was not necessary for those performing field exams -
- to contact the permit holder before making examinations. For -
- this reason it appears Tony went out and examined a farm -
- located in Sec. 32 & 33, T3S, R34E. This was the legal -
- description on the Permit. -
- Unfortunately, the land owned by Mr. Reed is in T2S and not -
- T3S. The land in T3S is owned by Fort Hall Indian Reservation, -
- is in Basin 27, and, although the Permit mentions Peoples Canal -
- Co. shares, it is obvious that Peoples Canal water could not -
- irrigate land south of the Snake River and on top of Ferry -
- Butte. -
- Because of the error on the original Permit and the -
- subsequent error with the field exam performed in 1978, a -
- Re-exam was performed for this water right to reflect the true -
- place of use, point of diversion and diversion rate. -

Have conditions of permit approval been met? ☒ yes ☐ no

RE: RE-EXAM FOR AMENDED LICENSE

DATE: 6-OCT-1992

=====

Eastern Region has identified this right as having an inaccurate field exam. The exam was done without contacting the right holder and by legal descriptions provided by the Permit. Verification of the SRBA claim made based on this right revealed that the wrong property had been examined due to an original error on the application and permit.

The property associated with this right is located in T02S, not T03S, and may also be located within a different administrative basin.

Eastern Region will forward a new field exam for this right. An Amended License will be prepared according to the new exam findings. The right holders are aware of the problem and want to resolve it in the most expedient manner.

Dear Mr. Reed;

A representative of this Department made an examination of the works covered by your Permit No. 35-7224 on August 3, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 2.09 cfs Source: groundwater

The maximum quantity diverted shall not exceed 455 acre feet per
year.

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 33, Twp. 3S, Rge. 34E, B.M.

Beneficial use: Irrigation of 130 acres within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 33, Twp. 3S,
Rge. 34E, B.M.

Priority date established: April 13, 1972

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Sincerely,

JAN GROVER

Dear Mr. Reed:

One of the conditions of approval of your water Permit No. 35-7224 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Reed:

Enclosed is a copy of your approved Application for Permit No. 35-7224. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device as part of the diverting works has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

We wish also to advise you that the issuance of this permit does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by you through action outside of the water right proceedings.

Dear Mr. Young

In the application for well permit no. 35-7224 in paragraph 10 it states that a neighbor who owns the land in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 33, T. 3S, R. 34E, B.M. Applicant intends to buy it soon. This is an error as the neighbor intends to buy water from the well.

Enclosed is an agreement between my father and I and also between the neighbor and myself.

Yours very truly

Robert D. Reed

Reed Murdock, a neighbor, who owns land in the NW $\frac{1}{4}$ NW $\frac{1}{4}$,
Sec. 33, T. 3S, R. 34W, B. M. has agreed to buy water for
approximately 40 acres of land from the well of Permit No.
35 7224.

Reed D. Murdock
Robert D. Reed

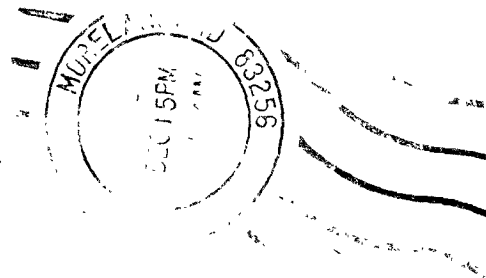

I, Robert Reed have agreed with my father, George Ree, that when he sells his farm of 100 acres that I will purchase it. The 100 acre farm is part of the land that will be irrigated with water from the well of permit No. 35 7724. I now farm this land and will continue to farm it.
