RE: Permit No. 35-7194

Mr. Marvin W. Vail
Rt. #5, Box 120-A
Blackfoot, Idaho 83221

Dear Mr. Vail:

On September 15, 1976, personnel from this office visited the well under your Permit No. 35-7194. This examination was to finalize the water permit and collect data required for the licensing of the well.

The examination indicated that the system may possibly not be operated as you stated in your proof of beneficial use. A measuring device approved by this Department has not been installed at the point of diversion. Because of this non-compliance where the measuring device is concerned, the priority date that you have established for this ground-water source may be in jeopardy.

This office will hold the field report until the beginning of the next irrigation season. At that time we will submit our findings to the State Office in Boise. Hopefully, before that time you will contact this office and indicate that the measuring device has been purchased and/or installed. We will then re-examine the system with you or your representative present. Please contact me to set up an appointment for this re-examination.

Compliance with the conditions on your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please do not hesitate to contact me.

Very truly yours,

ERNEST M. CARLSEN
Water Resource Agent

Dear Mr. Vail:

We acknowledge receipt of the assignment conveying the above referenced permit to you. The assignment has been recorded and the Department's records have been changed.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Idaho Falls.

Dear Mr. Watkins:

The State of Idaho, Department of Water & Administration, has revised their application fees and have therefore returned your check No. 17494 in the amount of \$45.00 to us as it is not sufficient for 6.4 cubic feet a second.

Enclosed please find your check number 17494. The letter from the Department of Water Administration and a copy of their fee schedule.

If you have any questions, please advise.

Sincerely,

Fred L. Hanson

Dear Mr. Hanson:

We have reviewed the application for permit submitted by you in the behalf of the Snake River Equipment Company. We are returning check #92-42, in the amount of \$45.00, and a fee schedule for your reference. The check is insufficient for a water supply of 6.4 cubic feet per second. The application will be held until a check for the correct amount is received and the processing will begin.

If you should have any questions regarding this matter, please let us know.
