Dear Mr. Dalley:

One of the conditions of approval of your water Permit No. 35-7178 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before AUGUST 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

SUBJECT: Transfer of License No. G-22879/35-2232
Amendment No. 35-7p78

The transfer of License No. 35-2232 is needed because of land subdivision and the necessity of separating the water right for F.H.A. financing. The well has been drilled and used at the new location. I would recommend that that transfer be approved.

The amendment does not make a significant change to the permit. The applicant, when he filed the permit, intended to abandon the licensed well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20 and drill a new well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20. By keeping the well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, he is able to retain the 1952 priority on part of the water from the well. I believe the amendment should be approved without advertising.
