Route #4, Box 128-A
Blackfoot, Idaho 83221

Dear Mr. Ellis:

We are returning your application for permit and personal check No. 92-241 in the amount of \$35, as the point of diversion under Item 3a does not correspond with the map on page 3 of the application.

We also wish to advise you of our claim to a water right procedure. If you have a water development that has been in use for a period of time with a historical background of use, then perhaps you have already established a water right which could be recorded on our claim to a water right form. This form may be used to record ground water development prior to 1963, and any surface water development prior to May 20, 1971. We are enclosing such a form for your consideration in this matter.

If you should have any questions, please advise.
