WATER RIGHT LICENSE

License of Water Right No. 35-7166 Priority February 12, 1971 Amount 1.21 cfs

THIS IS TO CERTIFY, that MUTUAL LIFE INSURANCE OF NEW YORK
of Blackfoot, Idaho, has complied with the terms and conditions of Permit
No. 35-7166 issued pursuant to Application for Permit dated February 12, 1971,
and has submitted proof to the Department of Water Resources on April 25, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.21 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>May 31</u> to <u>November 1</u>	at <u>1.21</u> cfs and	<u>238 acre feet</u>
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.21 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
238 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 3S,
Rge. 34E, B. M. in the County of Bingham

A measuring device of a type approved by this Department shall be maintained
as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 8 day of
May, 19 78.

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 35-7166 on July 10, 1976, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.21 cfs Source: groundwater

The maximum quantity diverted shall not exceed 238 acre feet per
year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 3S, Rge. 34E, B.M.

Beneficial use: Irrigation of 68 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8,
Twp. 3S, Rge. 34E, B.M.

Priority date established: February 12, 1971

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Sincerely,

JAN GROVER

Dear Sirs:

We have received an assignment of permit and a power of attorney from Daniel T. Polatis. We have entered the assignment into our records of Permits No. 35-7166 and 35-7306, but since Mr. Polatis jointly holds Permit No. 35-7503 with Arnold J. Goodlife, Mr. Polatis alone cannot assign this permit. We are enclosing copies of all three permits for your use.

Since Mr. Polatis no longer holds any interest in Permits No. 35-7166 and 35-7306 we are not including in these files the power of attorney he sent to us. Mr. Polatis still does jointly hold Permit No. 35-7503 and we will include in that file the power of attorney naming you as attorney.

If you have any questions please contact us.

Re: Permit No. 35-7166

Mr. Daniel Polatis
Route 2, Box 219
Blackfoot, Idaho 83221

Dear Mr. Polatis:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of the Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We also have received the application for amendment submitted in connection with this permit. However, we wish to advise you that the permit cannot be amended to include the additional acreage. As you are aware, Permit 35-7166 was issued for only 77 acres and, therefore, the Department could not approve an amendment which would expand the original right.

As Idaho is under a mandatory permit system for ground water development, you will be required to file an application and secure a valid permit for the additional land. We have taken the liberty of preparing an application for your use. We noted on your proof affidavit that you also use the water for stockwater purposes, therefore, we have included that use on the new application. Please complete item 4 by indicating the quantity of water diverted for stockwatering and also item 5(a) showing the total quantity of water to be diverted under the application.

Your \$10.00 check for the amendment fee was receipted, therefore, we will apply that amount toward the filing fee for the new application. We are assuming the total quantity of the application will not exceed 3.0 cfs; leaving a balance due of \$35.00 for the application for permit.

If you have any questions regarding this matter, please contact us as soon as possible.

Dear Mr. Polatis:

One of the conditions of approval of your water Permit No. 35-7166 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. Dean Williams

P. O. Box 703
Blackfoot, Idaho 83221

Dear Mr. Williams:

We have received your three letters of June 1, 1973, and will attempt to answer your inquiries as follows:

Re: License No. G-22399/35-2240 (C. J. Polatis)--The Department has no procedure for changing the record of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the deed. You may, however, submit to this office a copy of the deed or other document indicating a change of ownership which will be placed in the license file for future reference.

Re: Permit No. 35-7166 (Daniel Tyler Polatis)--The Department cannot approve an amendment which would enlarge or expand a water right. Therefore, a permit cannot be amended to include additional acreage or a greater quantity of water. In order for Mr. Polatis to establish a water right on the 104 acres, he must follow the permit procedure, which would of course initiate a water right with a priority of the date the application is filed. We have enclosed an application form for your use in the matter and also one for the additional use proposed from the well under License No. G-24024/35-2323 (Watson E. Thomson).

If you have any questions regarding the above matters, please do not hesitate to contact us or our Eastern District Office in Idaho Falls.

Sincerely,

D. Darlene Reich

RE: Permit No. 35-7166 Daniel Polatis

Dear Sirs:

Daniel Polatis has requested that I contact you for the purpose of having the above permit amended by adding an additional 104 acres. The extra acres has been put under the same well which is covered by the above permit. It will be his expectation that he will not loose any priority date on the 80 acres covered under the original permit.

Will you please send me the necessary forms to amend the permit to include the extra acres. Mr. Polatis will be able to submit final proof on the entire system within the time allowed originally.

Your immediate response will be appreciated.

Thank you,

KERR AND WILLIAMS

Mr. Daniel Tyler Polatis

Dear Mr. Polatis:

In the final evaluation of your application for permit, the Department feels that the quantity of water that you have requested is somewhat excessive. The maximum quantity of water that we could approve for appropriation for irrigational use under normal conditions, would be one inch, or .02 cubic feet per second per irrigated acre. Therefore, without additional justification, the department could approve your application for only 1.54 cubic feet per second of water.

If we do not hear from you within ten (10) days of the date of this letter, we will complete the processing of your application in this manner.

Very truly yours,

Dorian Clay

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
