Dear Mr. Foster:

Enclosed herewith is a copy of the Amended Water Right License No. 35-7143. Please note that we have corrected the place of use within Section 8 to describe what the field examiner found (i.e. all of the NW $\frac{1}{4}$ was irrigated instead of the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and S $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$).

I apologize for the delay in sending you a copy of the amended license. As you can see it was signed just a few days after your office visit but was held on another desk for sending out. I just discovered that you had not received your copy this morning.

If our office can be of any further assistance to you, please feel free to contact us.

DATE April 12, 1988

SUBJECT Amended License

Mr. Foster came in to this office today regarding the license issued for this water right. He is trying to obtain a loan from the PCA and they would not take any action until he has a water right for the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, Twp. 7S, Rge. 30E. In reviewing the license issued on January 3, 1974, and comparing it with the field examination conducted prior to license issuance, it is my determination that a typo-graphical error has been uncovered on this right. The license should cover 157.5 acres within the NW $\frac{1}{4}$, Sec. 8 and no land in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8 should have been licensed under this right.

An amended license has been prepared to resolve the Departmental error in the issuance of license 35-7143. Mr. Foster would appreciate being advised as soon as the amended license is issued. He now has a Boise address... it is as follows:

12. Non-agricultural property valued at \$ _____ is included in this "as is" value and consists of _____

13.

C. REMARKS: Elaborate on any items needing further clarification.

1. This security is located 9 miles NW from Am. Falls on State Hwy. & Cnty. Road access. (Direction) (Nearest town) (Describe if access is other than public roads, i.e., easements, etc.)

2. Elevation _____ Rainfall _____ Growing Season _____ Hazards _____

3. Source and amount of domestic water _____

4. The legal description provided in the application ☒ is ☐ is not correct. If not, explain below.

5. Irrigation water right is derived from license #35-7143 with a priority date of 4-13-70 and calls for a diversion of 4c.f.s.. The license calls for irrigation of 198.5 acres on the subject property and 38.5 of land in the NENW of Sec. 8. There is currently no water right for the NENW of section 8 which is our subject property. The engineering report at the State Water Resources calls for the NENW to be part of the land irrigated. There may have been a typo when the license was issued. The as is value above considers the land, water and buildings as they exist currently. The as will be value considers the addition of irrigated acres as the result of getting the license changed to include the NENW. Members should be encouraged to make these changes in the water license.

14. Irrigation equipment consists of a GE 75 hp. electric motor SN#ALJ122130; a Johnston pump with no number. 3,960 ft. of 10" and 8" steel buried mainline and 12 thunderbird wheel-lines. All irrigation water rights and equipment should be included in PCA's mortgage.

17.

Mr. Foster came in to the office today to ^{kw} ~~submit~~ a transfer to correct the license. In reviewing a photo it is obviously a Sept. error. Need to amend license ... 4/12/8.
