Re: Permit No. 32075/35-2756

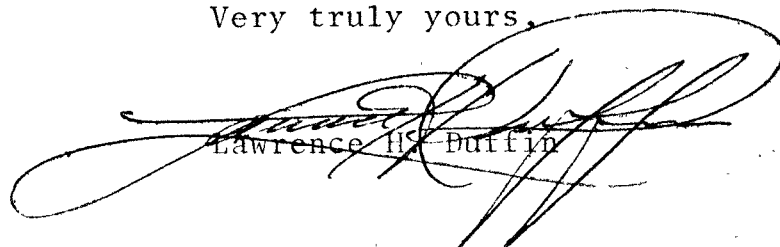

Dear Mr. Fleenor:

Subsequent to your telephone call of July 10, 1973, I again consulted with my client, Mr. Blaine Hansen, regarding the amount of irrigated land covered by the above numbered permit. He informs me that he is absolutely certain that he has a minimum of 158 acres being irrigated by this well. He states that this irrigated land consists of hay, grain, and pasture and that the A.S.C. aerial map will confirm his claim. He further states that in sections 33 and 34 he has eight acres of holding pens, but everything south of his main line is permanent pasture and would leave about two or three acres for corrals and house.

The twenty acres that was subtracted from the A.S.C. aerial photograph is located in the N.E. $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of section 34 and is covered by Permit No. 35-7099. This 20 acres will be planted to permanent pasture and irrigated beginning next spring.

Your representative, as a result of a field examination, apparently believed Mr. Hansen was not using all of the water for beneficial use on the land described in the permit. Inasmuch as Mr. Hansen does not agree with this finding, perhaps you could advise me as to the particular land that your field examiner believed was being irrigated.

Very truly yours,

Lawrence H. Duffin

Dear Mr. Hansen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If someone other than you should be contacted by the examiner, please advise our District Office at 240 South Holmes, Idaho Falls, Idaho.

Very truly yours,
