Re: Application for Permit No. 35-7088
Z & S Farms
KCL Loan No. 73939
Shultz & Zweigart

Dear Mr. Allred:

I have received the enclosed Certification of Well Flow on Z & S Farms which I am forwarding to you at this time for your files. This certification is certified by Robert E. Colson, Registered Engineer, as of September 30, 1969.

It is my understanding that this may not be of any use to you at this time other than as a reference as it will probably be next spring before all of the crop land is planted and irrigated beneficially. This is necessary before the proof can be furnished by Z & S Farms.

It is my understanding that you should now be in a position to issue the approved permit since you were furnished a letter dated October 1, 1969 from Donald Shultz which advised that Z & S Farms would accept the 4.9 C.F.S. Would you please furnish me a copy of the approved permit as soon as it is issued.

Very truly yours,

Kenneth B. Todd

SUBJECT: Certification of well flow on Z & S FARMS property
in Bingham County, Idaho.

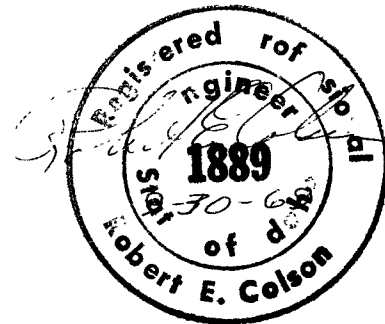

LOCATION: Township 4 South, Range 33 E.B.M., Bingham County,
Idaho. NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 15.

MEASUREMENTS: Measurement was made as open discharge for a 10" orifice plate measuring a 40" rise in water column on the pitot tube giving a 3200 gpm delivery.

Showing ample flow for this well where this pump will be required to deliver 5.0 cfs when the design load of 12 lines (33 heads each) requiring 5.7 gpm (#30 Rainbird Head) at 45 lbs. pressure with a total Dynamic Head Loss of 224 lbs. assuming the measured 30 feet of drawdown to be the same for both open discharge and operating delivery.

CERTIFICATION

This 29th day of September, 1969, I, ROBERT E. COLSON, a registered professional engineer, hereby certify that the following measurements were taken by me and do hereby certify them to be correct and the same as described above.

Gentlemen:

The Department of Reclamation has processed your application and is prepared to take final action; however, you should be advised that our records indicate that you have a license totaling 1.5 c.f.s. of water to irrigate portions of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, and SE $\frac{1}{4}$ SE $\frac{1}{4}$ all in Section 15, Township 4 South, Range 33 East, B.M. As you are probably aware, the Idaho Code prohibits this department from approving an application which would authorize the diversion of more than 0.02 c.f.s. of water per acre of land irrigated unless the applicant can show the need for more. With this in mind, we would approve your application for 4.90 c.f.s. of water. Please advise us as soon as possible if this amount is acceptable, or if you feel that you need more, supply additional information justifying the need for a greater rate of diversion.

We have also had difficulty in sending mail to the address on the application. The last attempt was returned marked insufficient address. You should notify us as to the correct address since all official correspondence has to be sent to the address of record on the permit.

Mr. Ken Todd of Kansas City Life Insurance Company has requested that I send proof of beneficial use forms for your use once the permit is approved. These forms should be used only when you have planted a crop and have irrigated that crop.

We also need to know whether or not Mr. Fred Zweigart, the person signing the application, is a general partner of Z and S Farms, or if he is not, by what authority he signs the application.

If you have any further questions, please contact me.

Gentlemen:

The Department of Reclamation has processed your application and is prepared to take final action.

We wish to advise you that a research of our records indicate that you have licenses totaling 1.50 cubic feet per second for portions of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15.

Therefore, the Department of Reclamation will consider at maximum, allowing 4.90 cubic feet per second under the above referenced application. Idaho statutory law allows the Department of Reclamation to approve a maximum of .02 cubic feet per second per irrigated acre. Therefore, with this in mind, if the 4.90 cubic feet per second will be acceptable please advise us by return mail. If not, please supply qualified information as to why you require additional water above the maximum legal rate of diversion.

Your immediate attention to this matter is appreciated.

Dear Mr. Hanson:

We are in receipt of the above referenced application for permit and \$45 filing fee. However, you have not indicated on the application the period of use during each in year in which the irrigation of the 320 acres will be conducted. This should be a month and day in the spring and a month and day in the fall. As soon as we are in receipt of this information, we can accept your application and begin processing.

Please advise us by return mail so that we may process the application and check without much delay.
