Dear Mr. Allred,

In answer to your letter dated November 30, 1976, the
sprinkler company who installed my sprinkler system said
it was not necessary. They acted like if you wanted
it it was okay but not necessary. They said they
could figure this information out as has always
been done in the past. So I just let them
figure it out and sent it in.

I don't know what alternatives are left, but if
given the chance I will install the device as
soon as it is possible to get a truck up to

Re: Permit No. 35-7081

Mr. Dennis E. Murdock
Box 200, Route 5
Blackfoot, Idaho 83221

Dear Mr. Murdock:

Our letter to you dated August 10, 1970, indicated that the proof of beneficial use which you submitted in connection with your Permit No. 35-7081 was unacceptable, due to the fact that you had failed to install a permanent measuring device. Such device was required to be installed as a condition of the issuance of the permit pursuant to Sections 42-203, 42-701 and 42-237a of the Idaho Code.

You are, therefore, hereby ordered to show cause before the Director of the Department of Water Administration on or before January 9, 1971, why Permit No. 35-7081 should not be cancelled and held null and void for failure to comply with the terms and conditions of its issuance. This order is sent under the provisions of Section 42-311, Idaho Code.

You should be advised that, in the event the permit is cancelled due to your failure to show reasonable cause on or before the above date, continued diversion of water would be without permit and subject to legal action.

Dear Mr. Murdock:

We are in receipt of your affidavit submitted as proof of beneficial use for permit 35-7081. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof affidavit and issue a license unless you have installed a measuring device of a type approved by this Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until November 15, 1970.

We are enclosing a list of the types of measuring devices approved by the Department of Water Administration. If you have any questions, please contact us at once.

Very truly yours,

C. STEPHEN ALLRED
