Dear Don:

I was just checking through Darrell W. Burke's file to determine the present status of the above numbered permit, upon which we made proof of application and completion of works last year.

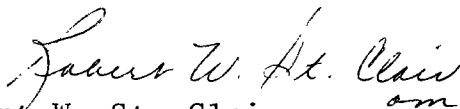

The last I heard about this was the letter from Darrell Burke dated June 16, 1970, in which he mentioned they obtained a measuring device from Ag. Services and had same installed on the pump.

I do not seem to find from my file that license has ever issued and wondered if you could kindly advise in this respect.

Kindest regards.

Dear Mr. St. Clair:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for permit 35-7076.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact Mr. Burke at the time he makes the examination so that he may show him the system. If someone other than Mr. Burke should be contacted by the examiner, please advise.

In connection with the measuring device - no, we have not received the list of manufacturers and prices. Mr. Burke should be aware that if the measuring device is not installed at the time of the field examination, his proof of beneficial use will be rejected and the permit cancelled.

If we may be of any further assistance, please contact us.
