Dear Mr. Carter:

One of the conditions of approval of your water Permit No. 35-7056 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

MAR 20 1987

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Ms. Curtis:

Department of Water Resources

The permit in question #35-7056 which we hope to re-instate was issued to my husband W.H. Carter, who passed away in 1974. We are not sure why he didn't send in the proof card as required but the well was in place and irrigating our land several years prior to that date.

Our family feels that the proof card was not sent in strictly as an oversight and request that the reinstatement procedure continue.

Dear Mrs. Carter:

We have received the documentation you submitted in order to reinstate the above referenced permit along with the assignment of the permit to Richard, Ronnie & Larry Watt.

Everything appears to be in order. However, one piece of information is still needed before reinstatement can proceed. Section 42-218a, Idaho Code, requires reasonable cause why the proof of beneficial use was filed late. Therefore, we need a written statement from you giving the reason why the proof of beneficial use statement (postcard) was not submitted before the proof due date of October 1, 1973.

Please submit this written statement on or before October 15, 1985 so that processing can continue toward reinstatement. If you have any questions regarding this matter, please feel free to contact our office.

REINSTATEMENT REVIEW

Permit No. 35-7056

Proof due: October 1, 1973
Proof submitted: November 7, 1984
Proof letter sent: August 1, 1973
Lapsed letter sent: October 4, 1973

Evidence received:

1. Irr. Elec. Service agreement - Id. Power 2/2/1970
P/U: W $\frac{1}{2}$, Sec. 12, T3S, R33E - same as permit
2. Billing from Id. Power for service (above) 9/24 - 11/25/1971
3. Aerial photo - top of photo dated 1966
4. Affidavit from Mrs. Carter (used since 1971) 5/24/1985

Proof card can be accepted from Watt's because of assignment; assignment can be accepted because enough evidence shows Violet Carter to be the spouse and personal representative of W. Homer Carter's estate.

Source - well - checked for well log, none in our files

Reason for submitting proof late:

Per telephone conversation with Joann McNeil (Fed. Land Bank, per memo of 7/17/85 I contacted her); she stated that Mr. Carter was elderly and didn't always keep up with things & therefore, simply overlooked the matter of submitting proof - 8/12/85

Dear Mr. Carter:

One of the conditions of approval of your water Permit No. 35-7056 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
