Dear Mr. Williams:

One of the conditions of approval of your water Permit No. 35-7044 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

The Department called the Aberdeen Times after the first publication and requested that the paragraph be included in the second publication and that the affidavit of publication be taken from the second publication.

If the advertisement was corrected for the second publication, please supply the Department of Reclamation with the corrected affidavit and return the bill after the certification is complete. However, if the advertisement was not corrected, please readvertise the notice and submit a correct affidavit and a complete certified bill to the Department of Reclamation. In this case, please retain the first or original bill as this publication was in error and the Department is unable to submit payment.

If we may be of further assistance, please contact us.
