Re: Permit No. 35-7042

Tommaso Rossi
Pingree,
Idaho 83262

Dear Mr. Rossi:

One of the conditions of approval of your water Permit No. 35-7042 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

ATTENTION: H. William Furchner

Dear Mr. Furchner:

We are enclosing a beneficial use affidavit and a set of instructions. You should be advised that no further publication of this permit will be necessary in connection with proof of beneficial use.

The only point of diversion referenced in the file is the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 29, Township 3 S, Range 33 E, B.M. Not only does the approved permit show this description, but so does the well log submitted on August 29, 1970.

We are enclosing an amendment application form for your further consideration. A fee of \$5.00 is required for each amendment filed.

If we may be of any further assistance to you in this matter, please do not hesitate to contact this office.

Very truly yours,

Donald W. McElDowney
Appropriation Supervisor

Dear Mr. Higginson:

The above-named permit holder is ready to make final proof and has requested us to assist him in doing that.

Will you please forward us the proper forms for the proof which I presume will require publication of notice. In this connection we would like to be assured that the point of diversion as shown in the original permit has been corrected in the records of your office. If no such correction has been made it will also be necessary for us to amend the permit to show the proper point of diversion.

Very truly yours,
