Moreland, Idaho 83256

Dear Mr. Belnap:

One of the conditions of approval of your water Permit No. 35-7036 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Permit No. 35-7036

Mr. Wallace J. Belnap
Box 286
Moreland, Idaho 83256

Dear Mr. Belnap:

On July 2, 1975, personnel from this office visited the well under your Permit No. 35-7036. This examination was to finalize the water permit and collect data required for the licensing of the well.

The examination indicated that the system is being operated as you state in your proof of beneficial use except for the fact that a measuring device approved by this Department has still not been installed at the point of diversion. Because of this non-compliance where the measuring device is concerned, the priority date that you have established for this ground-water source may be in jeopardy.

This office will hold the field report until July 30, 1975. At that time we will submit our findings to the State Office in Boise. Hopefully, before that time you will contact this office and indicate that the measuring device has been purchased and/or installed. We would then be willing to do a re-exam to submit to the State Office.

Compliance with the conditions on your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please do not hesitate to contact me.

Very truly yours,

BILL RHOADS
Sr. Water Resource Agent

Dear Mr. Belnap:

One of the conditions of approval of your water Permit No. 35-7036 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
