Re: Application No. 35-7034

Leslie Pratt
Aberdeen,
Idaho

Dear Mr. Pratt:

We are writing in connection with your application to appropriate the public waters of the State of Idaho. The land you have listed under Item 8b of the application does not correspond with the map you have submitted under Item 11. The map you have submitted also shows that you intend coverage for the NE¹/₄ NW¹/₄, sec. 6, T. 5 S, R. 11 E, B.M.

Please review the copy of the application we are enclosing and advise the department as to whether the land list is correct or the map. Make the corrections on the copy and return to the Department. We will then proceed with the processing of your application.

Thank you for your assistance in this matter.

Very truly yours,

License of Water Right No. 35-7034 Priority August 14, 1968 Amount 3.72 cfs

THIS IS TO CERTIFY, that Leslie Pratt
of Aberdeen, Idaho, has complied with the terms and conditions of Permit
No. 35-7034 issued pursuant to Application for Permit dated August 14, 1968,
and has submitted proof to the Department of Water Resources on June 5, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 3.72 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use **Period of Use** **Rate of Diversion** **Annual Volume**
Irrigation from April 15 to November 15 at 3.72 cfs and 1106.0 acre feet
from _____ to _____ at _____ cfs and _____
from _____ to _____ at _____ cfs and _____
(both dates inclusive)

subject, however, to the condition that no more than 3.72 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1106.0 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 1,

Dear Sir:

I am inclosing the information you requested in your letter dated May 28, 1991. This information is in relationship to license No. 35-7034, Also Permit No. 35-08726. We originally drilled this well and watered this ground with furrow irrigation. Later, this was changed to Sprinkler irrigation. We used the same motor, but changed the pump. The pump with sprinkler did not provide enough water for the entire acreage. In 1989 we changed the pump and motor to provide enough water for the entire acreage. The water that we are applying for is extra water that we need for this acreage. If more information is needed please let me know.

Sincerely,

Re: Leslie Pratt - Water Right License #35-7034

Dear Mr. Tuthill:

I have been contacted by Mr. Leslie Pratt of Aberdeen, Idaho to assist him in straightening out a problem which has arisen with the water right license issued on the 20th day of September, 1983.

Mr. Pratt originally made application in 1968 regarding the land in question and received approval on January 9, 1969 for seven (7) cubic feet per second (cfs) of water from the land in question.

As you are aware, it does take some time for measurements to be made and measurements were not taken until September, 1983 at which time Mr. Pratt was in the process of changing his irrigation practices from open discharge to a sprinkling system.

Because of the change over and the time in which the measurements were taken, Mr. Pratt feels a proper measurement was not obtained and rather than being given the full amount applied for of 7 cfs, he was only granted 3.72 cfs.

At this time, the change over is being completed on the land in question and the full 7 cfs is now required by Mr. Pratt in order to properly irrigate the land in which the water was originally approved for.

Apparently, the differences have arisen because of the differences in open discharge as compared to the sprinkling system measurements.

Mr. David Tuthill
March 7, 1985

Mr. Pratt has requested me to contact you and to obtain approval to amend the water right license for the full csf now that they are in the position to complete the change over.

We would ask that the water right license be amended and new measurements be taken for the water right license.

As you can imagine, Mr. Pratt is under some time restraints due to the planting season approaching and needs a response as soon as possible.

If this amendment can be done without further applications or conferences, we would greatly appreciate it, however, we would be willing to submit whatever papers, documents, etc. needed to expedite this since substantial monies will be tied up in power conversions and equipment conversions.

Your attention to the aforementioned is appreciated and I look forward to hearing from you soon.

Also, please find enclosed copies of the Water Right License and Application for Permit for your information.

If you have any questions or comments, please feel free to contact me.

Very truly yours,

Phoned Mr. Pratt today in regards to receiving his non-concurrence to our licensing letter. He stated that he has had crops in the full 320 acres less county roads ever since he changed over to a sprinkling system. He also said there was one year that he did not produce crops on the 110 acres in question. This was apparently the year the field exam was done. Dear Mr. Pratt:

We are writing in connection with your application to appropriate the public waters of the State of Idaho. The land you have listed under Item 8b of the application does not correspond with the map you have submitted under Item 11. The map you have submitted also shows that you intend coverage for the NE¹/₄ NW¹/₄, sec. 6, T. 5 S, R. 31 E, B.M.

Please review the copy of the application we are enclosing and advise the department as to whether the land list is correct or the map. Make the corrections on the map and return to the Department. We will then proceed with the processing of your application.

Thank you for your assistance in this matter.

Very truly yours,

Dear Mr. Pratt:

We are returning your personal check in the amount of \$20.00 and your application to appropriate the public waters of the State of Idaho. Please be advised that before your application is acceptable we must have some additional information and an additional filing fee.

Answers to Item 2 and 5a of the application must be submitted. If the quantity of water you wish to request is 7.0 cubic feet per second, the quantity of your filing fee will be \$50.00. We are enclosing an instruction sheet for your use in determining the fees if the quantity is not 7.0 cubic feet per second.

Please contact us if you need further assistance.

Very truly yours,
