Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 35-7028 and has found the following:

Quantity of water diverted: 2.77 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.45 cfs

The maximum quantity of water diverted shall not exceed 254 acre feet per season.

Beneficial use: Irrigation of 72.5 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ (38.5), NW $\frac{1}{4}$ NE $\frac{1}{4}$ (39), Sec. 21, Twp. 2S, Rge. 35E, B.M.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Twp. 2S, Rge. 35E, B.M.

The priority date established is: May 27, 1968

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Our field examination also indicates that your rate of diversion exceeds that authorized by your permit. Unless you have another valid permit for other grounds to be irrigated from this same well or other beneficial uses of this water, you must reduce your rate of diversion to that allowed by law. If you have any questions regarding this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

(Do not sign this letter)

Re: Application for Permit

Lambert Produce Company

Blackfoot, Idaho

Gentlemen:

We are in receipt of your firms check in the amount of \$25.00 and your application for permit; however, before we can accept your application we must have clarification on the following issues.

Under 4a of the application you have requested what appears to be 5.0 cubic feet per second for the proposed irrigation of 80 acres. The maximum rate of diversion that we can allow for irrigation is 1/50 of a cubic foot per second per irrigated acre. Therefore, the maximum that we could approve your application for would be 1.6 cubic feet per second.

The filing fee of \$25.00 which you have submitted is incorrect. The filing fee for 5.0 cubic feet per second, if we understand the application, would be \$40.00. Clarification of this issue is required before we may continue processing the application.

Your assistance in this matter is appreciated.

Very truly yours,
