RE: Water Right No. 35-02914 (Transfer No. 5016)

Dear Water Right Holder(s):

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water right (Transfer No. 5016). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying **transfer approval** should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can acontact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager

=====

Transfer No. 5016 changes the point of diversion and place of use under Right No. 35-02914. This right is located within both the ESPA East Water Measurement District and Bingham Ground Water District.

The applicant wants to relocate the well near an electric source and change from the present diesel pump system. The place of use relocates the acres within the same quarter-quarters to more accurately describe the current place of use. ✓

Season of use and diversion volume were adjusted to current standards. Recommended conditions include drilling permit requirements, irrigation overlap, measuring device/annual reporting, ESPA East and standard transfer conditions.

Notice is hereby given that George Walters, 665 W., 100 S., Blackfoot, Idaho, 83221, has applied to the Department of Water Resources to change point of diversion and place of use of the waters of a groundwater source. The right sought to be changed is evidenced by a license and recorded as follows:

No.: 35-02914

Source: Groundwater

Amount: 1.40 cfs

Priority: 03/08/1962

Point(s) of Diversion: NENW, Sec. 12, T03S, R34E, Bingham County.

The water is used for irrigation of 70 acres from 04/01 to 11/01 within the SWNE, Lot 2, SENE, Lot 1, E1/2NW1/4, Sec. 12, T03S, R34E, B.M.

TO BE CHANGED AS FOLLOWS:

This applicant will relocate the point of diversion (well) to the NENW, Sec. 12, T03S, R34E, and rearrange the acres in the same 1/4 of 1/4 as listed above to reflect the true place of use for the 70 acres. The water will be diverted from the NENW, Sec. 12, T03S, R34E, Bingham County.

Any protests against approval of the proposed change must be filed with the Idaho Department of Water Resources, 900 N. Skyline Drive, Idaho Falls, Idaho, 83402, together with a protest fee of \$25 on or before March 31, 1997. The protestant must also send a copy of the protest to the applicant.

RE: Notice of Application for Transfer No. 5016

Dear Applicant:

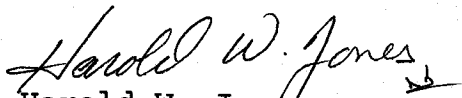

The Department of Water Resources acknowledges receipt of your application for transfer of water right 35-02914. This office is currently in the process of advertising the application in the Morning News on March 13 & 20, 1997. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a transfer is issued, you will be sent a copy. A typical processing time for an unprotested application is about twelve weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

Dear Mr. Walters:

A representative of this Department has made an examination of the works covered by your Permit No. 30407/27-2130 and has found the following:

Quantity of water diverted: 3.30 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.40 cfs

The maximum quantity diverted shall not exceed 245 acre feet per year.

Beneficial use: Irrigation of 70 acres within the S $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$,
Sec. 12, Twp. 3S, Rge. 34E, B.M.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$ (Lot 2), Sec. 12, Twp. 3S, Rge. 34E, B.M.

Priority date established: March 8, 1962

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Re: Permit No. 27-2130

Dear Mr. Walters:

According to Idaho Law, Section 42-204, we can issue only one extension of time, not to exceed five (5) years beyond the date originally set for completion of works and application of the water to the proposed beneficial use, unless a State or Governmental agency interferes with the completion of the development of your project.

As our Department has already granted an extension of time, it will be necessary for you to submit your proof of beneficial use on that portion of the project you have completed to date. Enclosed, please find our proof of beneficial use form, with instructions for filing. This proof form should be submitted on, or before March 12, 1972. If at this time, you have 100 acres under irrigation and plan to irrigate the rest from the well under this permit, it will be necessary that you apply once again for an application for permit with our office. Enclosed, please find our application for permit form, with instructions, for your convenience.

There need not be an amendment on the original permit if you are not irrigating any lands that are not included under the permit.

If we can be of any further assistance in this, or any other matter, please feel free to contact this Department.

Very truly yours,

Fred Eisenbarth

Dear Mr. Walters:

One of the conditions of approval of your water Permit No. G-30407/27-2130 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 12, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-30407 (New No. 27-2130)

Mr. George B. Walters
R.R. # 2
Blackfoot, Idaho 83221

Dear Mr. Walters:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dear Mr. Walters:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30407 are due not later than **March 12, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Permit No. G-30407

GEORGE B. WALTERS

of

Blackfoot, Bingham County,

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. G-30407.

That under the terms and conditions of said permit, construction work thereunder was required to be completed by March 12, 1967.

That he has heretofore performed the following work described under said permit: drilled well and placed same in operation-has leveled and cleared approximately 80 acres of land, all of which were irrigated during 1966. Clearing work consisted of removing several thousand cottonwood trees and stumps from premises, leveling for gravity irrigation. Cost of well and motor slightly over \$6,000.00, cost of clearing consisted of work done by applicant himself and hired workmen-cost of clearing has run in excess of \$100.00 per acre.

Costing \$14,000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: lack of finances, cannot borrow money on premises with which to hire rest of work to be done, and applicant is unable to clear the land himself within time limit of the Permit.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of works under said permit to March 12, 1972.

Subscribed and sworn to before me this 23rd day of December, 1966.

My commission expires 5-27-68

Notary Public.

Our File No. X-1488

Attention: Mr. M. Russell Bosch, Office Manager

Dear Mr. Bosch:

Thank you very much for your letter of December 20, 1966.

The Application For Extension Of Time For Completion Of Works of Mr. George B. Walters is enclosed herewith.

On behalf of Mr. Walters, I would like to urge the granting of the application based upon the unique situation which exists with respect to the subject permit.

The land to be irrigated by water from the well drilled under the subject permit, consists of land adjacent to the Snake River, and on which many hundreds of cottonwood trees grow.

During the past five years Mr. Walters, and men hired by him, have cleared several thousand of the cottonwood trees from the premises, and it is my opinion that Mr. Walters ^{has been} very diligent in his endeavors to get the land into production.

However, as you will note from the application, on the remaining hundred or so acres of uncleared land, there are still several thousand trees and stumps to be cleared off. Due to the financial burden the clearing of the land imposes upon Mr. Walters, it is his honest opinion that it will take approximately five years within which to complete the clearing of the subject premises.

In view of the unusual nature of Mr. Walters' problem, your earnest consideration of his request for extension of time is solicited.

If you have any further questions about this, or need some additional information, I would appreciate your letting me know as soon as possible inasmuch as if an extension of time is not granted, we will desire to proceed to the presentation of proof in respect to the land which has been cleared.

If you have any questions, I would appreciate your calling me collect at Blackfoot, telephone number 785-1940.

Thank you very much for your consideration.

Yours very truly,

Dear Mr. Stout:

It is not possible to grant an extension of time on your client's permit without the proper form of which is enclosed. If the well has been dug and part of the land cleared there is a possibility that an extension can be granted. If you will complete the enclosed form giving the required information the State Reclamation Engineer will be able to decide on the merits of Mr. Walter's case and you will be so advised.

If we can be of further assistance in this matter let us know.

Very truly yours,

M. RUSSELL BOSCH

In re: Permit No. G-30407
Our File No. X-1488

Gentlemen:

Mr. George B. Walters, applicant in the above numbered permit, has referred to this office your notification that the date for proof of completion of works and application of water to beneficial use is March 12, 1967.

I am writing to you to determine whether there is a possibility of securing an extension of time for Mr. Walters, inasmuch as all of his works are not completed.

In the event an extension of time cannot be granted, is it possible to make proof in respect to the completion of works which have been actually made, and prove the application of water to beneficial use to the land which has been cleared, in order to preserve a portion of the water appropriated under the above numbered permit.

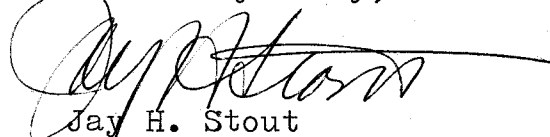

Mr. Walters has invested quite a bit of money in clearing the land in question, but does need additional time. The land covered by the permit has a substantial amount of cottonwood trees on the premises, and this has necessitated a good deal of work in clearing the land.

Any information you can give me in respect to what procedure we should follow will be sincerely appreciated.

Is there any possibility of securing an extension of time under Idaho Code Sections 42-222 and 42-223.

Thank you very much.

Yours very truly,

Jay H. Stout
