Dear Mr. Thurston:

Your two water licenses provide 2.40 c.f.s. of subterranean water for irrigation of 120 acres of land, the maximum amount allowable without proof more water is necessary.

The water draining into the drainage well becomes public water and is no long under your control. If you pond the water and relift it for further use, you are within your rights as the water is under your control.

You can file an application for permit to irrigate the 40 acres not covered by your water rights being 4 acres NW~~1~~4NW~~4~~, Sec. 28; 34 acres NE~~1~~4NE~~4~~, 2 acres SE~~1~~4NE~~4~~, Sec. 29, T. 4 S., R. 33 E., B. M.

Dear Mr. Thurston:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27191 shows the well is ~~(now)~~ capable of conveying 92 miner's inches, or 1.84 c.f.s. of water for the irrigation of 120 acres.

Upon receipt of the statutory fees, totaling \$ 9.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 4.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of January 9, 1958 to the use of 1.84 second feet of subterranean water with the point of diversion in the SE 1/4, Sec. 29 for irrigation of 120 acres in the W 1/4, Sec. 28; E 1/4, Sec. 29, T. 4 S., R. 33 E., B.M.

The amount of water allowed under your two permits adds up to a full inch per acre for your 120 acres.

Dear Mr. Tappan,

I have a license and certificate of water right for 0.56 second feet of water from a well Permit # G-27113 (part).

I also have a license and certificate of water right for well Permit # G-27191 for 1.84 C.F.S.

This water drains into a sink well located in NW 1/4 of NW 1/4 of Sec 28 T.4S., R.33 E., B.M.

I would like to file on or obtain permission from your department to reuse this water by putting a 25 H.P. turbine pump in this well and sprinkling 66 acres with two 4" quarter mile long

sprinkler lines. the ground to be irrigated is covered ~~partly~~ by Permit # G 27113 (part) and G-27191.

What is the proper procedure for this? Will it be necessary to make amendments to the above mentioned Permits and transfer the ~~water to the~~ water rights to the sink well? The pump in the sink well pumps 60 miners inches.

Respectfully,

Dear Mr. Thurston:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Blackfoot News, all submitted in proof of completion of works and beneficial use on Permit No. G-27191.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Thurston:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27191 are due not later than **January 17, 1963.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Re: Permit No. G-27191

Mr. Thurland D. Thurston,
Pingree, Idaho.

Dear Mr. Thurston:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27191. The proofs are to be made at 11:00 o'clock A.M., on the 11th day of January, 1963, before Theo J. Dance, Blackfoot, Idaho, Notary Public.

As of this date we have mailed the Notice to the Blackfoot News Blackfoot, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
