Permit No. 2-27625

Dear Sir:

Upon taking the final proofs in connection with the above permit I discovered that the original permit and notice of proof incorrectly described the land and location of the irrigation well by showing them to be in Range Thirty-five instead of Range Thirty-four.

Therefore, it appears necessary that we amend the permit, republish the notice of proof, and submit the proofs after the publication is complete.

We enclose the application for amendment and the notice for publication with the land properly described, together with our check in the amount of \$1 to cover the recording of the amendment and request that the notice be sent to The Blackfoot News, Blackfoot, Idaho, for republication.
