Dear Mr. Rowland:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Post-Register, all submitted in proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26851.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-26851

Mr. Keith M. Rowland

Dear Mr. Rowland:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-26851 shows the well located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 24, Township 2 North, Range 36 East, B.M. and that it is capable of conveying 88 miners inches (1.76 c.f.s.) of water for irrigation of 120 acres.

The record of the Permit describes the point of diversion as being in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 24, therefore it is necessary that the permit be amended. We enclose an Application for Amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$11.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (six dollars--fee is based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of April 12, 1957, to the use of 1.76 second feet of subterranean water, with point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 24, for irrigation of 120 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, Township 2 North, Range 36 East, B.M.
