Dear Mr. Young:

Your letter of May 8th received regarding the amount of water licensed under Permit No. G-25508.

On June 24, 1960, our field examiner, Mr. E. N. Humphrey, Deputy State Reclamation Engineer, made an inspection of the works, the lands actually irrigated, and the amount of water put to beneficial use on this land. This is statutory requirement - Idaho Code, 42-217 - and was conducted in the presence of Mr. Miller

The holder and witnesses made depositions stating that the pumps delivered 2500 gallons per minute (5.54 c.f.s.) but at the time of examination over three months later the pumping plant was delivering only 2100 gallons per minute (4.66 c.f.s.) which was the actual amount applied to the lands. Therefore, license was issued for 4.66 cubic feet per second.

We are enclosing herewith necessary forms to be used in making another water application for the additional lands irrigated, if you wish to thus file.

Very truly yours,

GEO. N. CARTER

Dear Mr. Carter:

I am writing to you in behalf of J. JULIAN MILLER who holds Permit #G-25508 and Permit #G-29253. Permit #G-25508 has ripened into a license in the amount of 4.66 cubic feet per second although 13.4 cubic feet per second was applied for. Mr. Miller was under the impression that he had been granted 13.4 cubic feet per second instead of 4.66 cubic feet per second. He is desirous of learning why there was a reduction from 13.4 to 4.66 cubic feet per second.

Mr. Miller is presently irrigating 1130 acres of land and we are desirous of getting his water rights straightened out in such a manner as to enable him to obtain a water right for all of this land.

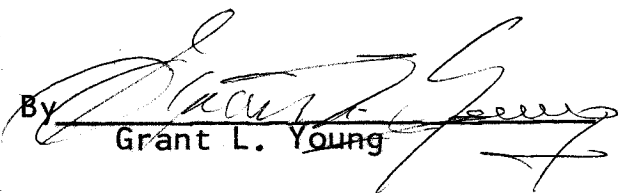

If it is necessary, we will file an application or still another water right so that this matter might be taken care of. If possible we would like to have the original Permit corrected so that he would have a water right for 13.4 cubic feet per second.

I will appreciate any information you can give me.

Yours very truly,

YOUNG & GEORGE

Dear Mr. Miller:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25508 shows the well is (~~xxx~~) capable of conveying 233 miner's inches, or 4.66 c.f.s. of water for the irrigation of 680 acres.

Upon receipt of the statutory fees, totaling \$ 45.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 40.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of March 10, 1955 to the use of 4.66 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, for irrigation of 680 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 11; S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 2; NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 11; W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 12, all in Township 4 North, Range 36 East, B.M.

Your permit shows the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 11. Before your license can be issued there will have to be an amendment to the point of diversion. Enclosed is an amendment form. Complete the form, send it with the above mentioned fees, and \$1.00 for recording the amendment, and your Certificate of Completion of Works and License and Certificate of Water Right will be issued.

Dear Mr. Miller:

We acknowledge receipt of the Deposition of Helder and two witnesses, also affidavit of publication in the Rigby Star, all submitted in proof of completion of works and beneficial use on Permit No. G-25508.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. Julian Miller, P.O. Box 4, Roberts, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am filing individually

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 25508 March 10, 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well, SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 11, Twp. 4 North Range 36 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Sprinkler irrigation system, main lines leading from well and pumps to the land are buried. Risers occur every 60 feet along the main lines. Well 400 feet deep, casing 12 inches, depth to water 270 feet. Discharge of pump estimated 2,500 gallons per minute. It was determined by considering number of nozzles, the size of the nozzles and the pressure at each nozzle. 520 nozzles with an opening of 3/16 of an inch at the end of each nozzle, 5 lbs. pressure at each nozzle.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, Twp. 4 N. R 36 E.B.M. 40 acres; SW $\frac{1}{4}$ SE $\frac{1}{4}$; (20 acres) SE $\frac{1}{4}$ SE $\frac{1}{4}$ (40 acres) of Section 2, Twp 4 N, R 36 E.B.M.; NE $\frac{1}{4}$ NE $\frac{1}{4}$ (40) NW $\frac{1}{4}$ NE $\frac{1}{4}$ (20) SW $\frac{1}{4}$ NE $\frac{1}{4}$ (20) SE $\frac{1}{4}$ NE $\frac{1}{4}$ (40); SE $\frac{1}{4}$ NW $\frac{1}{4}$ (10) NE $\frac{1}{4}$ SW $\frac{1}{4}$ (20) SE $\frac{1}{4}$ SW $\frac{1}{4}$ (20) All of the SE $\frac{1}{4}$ (160) all lying and being in Section 11, Twp 4 N, Range 36 E.B.M.; NW $\frac{1}{4}$ NW $\frac{1}{4}$ (40) SW $\frac{1}{4}$ NW $\frac{1}{4}$ (40) All of the SW $\frac{1}{4}$ of Section 12, Twp 4 N, Range 36 E.B.M. Cultivated; All of the land has been put under a sprinkler irrigation system and crops have been raised

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Charles Cope, Idaho Falls, Idaho

G25508

B

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. It is only used for irrigation purposes

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 670 miners inches

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the original owner

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I first started using this water in June, 1955, to sprinkle irrigate the land described above. I have used the full amount of water claimed to irrigate all of the land described above since 1955.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have no other water rights on the above described land.

Dear Mr. Young:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25508, in the name of H. Julian Miller. Final Proof is to be made before Geo. M. Larsen, Notary on the 4th day of March, 1960, at 10:00 o'clock A. M., at Rigby, Idaho.

As of this date we have mailed the Notice to the Rigby Star with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25508 are due not later than **March 10, 1960.**

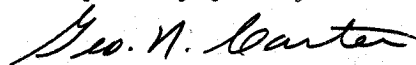

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
