We acknowledge receipt of the depositions of yourself and two witnesses, also the affidavit of publication from the Blackfoot Daily Bulletin, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in the matter the law requires that a field examination be made by an engineer from this Department.

The Daily Bulletin
Blackfoot, Idaho

Gentlemen:

We are this morning in receipt of copy of your issue of August 11th, containing notice of beneficial use proof under the above numbered permit, in the name of Leo J. Larsen.

There is, however, one error in this notice, which is probably due to a misreading of the copy.

In the paragraph starting "The place where said water is used, last line- it should be Twp. 2 8 (meaning South)- and not Twp. 25.

Also in the seventh line- there should be a space between the amount- making it 3-1/5- rather than 31/5.

Please make these corrections in the subsequent issues-

Mr. Leo J. Larsen
Blackfoot, Idaho

Dear Mr. Larsen:

We acknowledge receipt of your letter of July 25th, enclosing affidavit in proof of completion of works under the above numbered permit; also money order for the \$5.00 fee in connection therewith.

However, the proof is incomplete in one particular. Under Question 3, the point of diversion is described as being "upon the property which is irrigated". That is not definite enough, but you should give the 40-acre subdivision.

The permit application gave it as the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 3, Twp. 2 South, Range 34 East. Please advise if this is the correct point of diversion, and if so, we can fill in your affidavit accordingly.

Dear Mr. Larsen:

Reference is made to office letter addressed you on June 11th, transmitting the above numbered permit, and enclosing forms for making the two proofs required to complete your water right, and which are due on or before September 7, 1945.

No doubt you have overlooked completing and returning these forms; but since the law requires four weeks publication before making the final or beneficial use proof, it is important that this be taken care of promptly in order that the proofs can be made by September 7th, as required in the permit.

Re: Permit No. 19643

Mr. Leo J. Larsen
Route 2
Blackfoot, Idaho

Dear Mr. Larsen:

We enclose herewith Permit No. 19643, also Departmental Receipt # 18884, for the \$5.85 filing fee.

Your application states that the work is already completed, so we have allowed three months within which to make the proofs of completion of works, and beneficial use, required in order to complete the water right.

The proof of completion of works is made by executing the enclosed affidavit, Form No. 6, before a Notary Public, and returning to this Department, with the statutory fee of \$5.00- upon receipt and approval of which a certificate of completion of works will be issued.

Before the final or beneficial use proof is made, the law requires that notice be published once a week for four consecutive weeks in a newspaper in the county where the water is located.

This notice should be made out in duplicate, on Form 10 enclosed, naming the time and place, and also the Notary Public before whom the proof is to be made- being sure to set the date sufficiently far ahead to allow for the necessary four weeks' publication. Both copies of the notice are to be returned to this department, together with Form No. 11, which is your authorization for us to have the notice published at your expense, in the newspaper that you designate.

The proof is made through depositions of yourself and two witnesses, on forms that we will furnish, before the Notary Public named in the notice.

Very truly yours,
