Dear Mr. Taylor:

Enclosed is a copy of the approved Application for Transfer of Water Right No. 35-2883. We direct your attention to the conditions of approval as listed on the fourth page.

A measuring device requirement on the new point of diversion has not been included as a condition of approval, but we recommend you make provision in your system for future installation of a measuring device.

A measuring device may be required in the future if a water district is created or there is a need to regulate diversions by priority.

If you have questions, please contact the Department.

Sincerely,

Dear Mr. Vollmer:

One of the conditions of the approval of your permit
~~G-32213/35-2883~~ was that proof of application of the water to
beneficial use be submitted to this office on or before _____
~~February 5~~, 19~~70~~.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received

Dear Mr. Vollmer:

Enclosed is a copy of our letter of September 22, 1969, which we sent to the Blackfoot News.

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until February 5, 1970; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Blackfoot News, Blackfoot, Idaho, and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

RE: Permit No. G-32213

William Vollmer
American Falls
Idaho

Dear Mr. Vollmer:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit [REDACTED]. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Bill Vollmer
American Falls, Idaho

Dear Mr. Vollmer:

We have received logs on two wells drilled for you in the S¹/₂SE¹/₄,
Sec. 29, T. 6 S., R. 31 E., S.W. for irrigation purposes. We
find no record of a permit for these wells.

Idaho Code, 42-229, as amended by the 1963 Session of the
Legislature, provides that a permit to divert subterranean
water must be obtained from this office in all cases where
over 13,000 gallons per day or 9 gallons per minute will be
diverted.

Idaho Code, 42-237a, provides that the State Reclamation
Engineer may commence action to enjoin the illegal opening or
excavation of wells, or withdrawal or use of water therefrom.

A permit form is enclosed. May we hear from you?

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer
