We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If someone other than you should be contacted by the examiner, please advise our District Office at 240 South Holmes, Idaho Falls, Idaho.

Very truly yours,

Re: Permit No. G-33513/35-2867
Hans Hennebold

Dear Mr. Higginson:

Enclosed please find the completed Proof of Application of Water to Beneficial Use in the name of Hans Hennebold regarding the above referenced permit number. You will note in the remarks section that Mr. Hennebold uses the well to supplement his ditch right. He indicates that he has a water right of approximately 62 inches to serve 100 acres, and that he has no ditch right for his remaining 40 acres. In the average year, the ditch right supplies approximately 120 inches for his use and therefore the well is used for approximately the remaining 20 inches. However, in a dry year, he can only count on approximately 60 inches from the ditch; therefore, he relies on approximately 80 inches from the well. It is anticipated that this is the amount of water for which he wants to make his proof of beneficial use.

As you can see, the accurate measurement of the well right will rely in large part upon the available ditch water, since the ditch water is a much cheaper source.

You will note that the accurate measurement has not yet been made for the reason that the irrigation season has not yet commenced. The measuring device has been installed however.

We are not certain how your office anticipates handling this problem; however, we would hope that the proof of the water actually used would relate back to this application.

We await your further direction regarding this matter.

Sincerely yours,

FURCHNER, MARTSCH & BAKER

Dear Mr. Hennebold:

One of the conditions of approval of your water Permit No. G-33513/35-2867 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 17, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hennebold:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit.

Since proof of beneficial use of the water is not required until **March 17, 1972**, the Department will notify you sixty days in advance of this date as to further requirements. We wish to advise you, however, that if you have fulfilled the requirements under the permit you may submit proof any time prior to the above date.

Very truly yours,

Donald W. McEldowney

Dear Mr. Hennebold:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until March 17, 1972; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Blackfoot News, Blackfoot, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Very truly yours,

Donald W. McElDowney

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing ample time for you to submit to us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact the Department of Water Administration immediately.

The expense of the publication is to be paid by Hans Hennebold, Pingree,
Idaho, to whom you should furnish
an affidavit of publication.

Very truly yours,

Re: Permit No. G-33513 (New No. 35-2867)

Mr. Hans Hennebold
Box 93
Pingree, Idaho 83262

Dear Mr. Hennebold:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department: previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
