Application for transfer No. 35-2863 and 35-2622 are part of the package deal we helped Mr. McCullough complete to get his water rights straightened out.

A portion of the lands from which the water was removed has been included under Application for Permit No. 35-7520 and 35-7521.

There appears to be no problems involved in granting the transfers and I recommend they be approved with the usual measuring device requirement.

Dear Mr. McCullough:

After examining your Permit No. 35-2863 (N $\frac{1}{2}$, SW $\frac{1}{4}$, Sec. 36, Twp. 3N, Rge. 35E; S $\frac{1}{2}$ N $\frac{1}{2}$, Sec. 35, Twp. 3N, Rge. 35E, B.M.) I find that you are irrigating approximately 404 acres which are not included on your permit. All water being used in Idaho for irrigation must be under license or permit.

In order to expedite your filing of an application for permit to appropriate the public water of the state of Idaho, I have filled out an application form according to my findings.

Please examine this application for permit, and if you agree with the contents, sign and return it to this office.

If you have any questions, please feel free to contact this office.

Dear Mr. McCullough:

One of the conditions of approval of your water Permit No. G-33462/35-2863 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 7, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33462 (new no. 35-2863)

Mr. William James McCullough
Box 296
Idaho Falls, Idaho 83401

Dear Mr. McCullough:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dear Mr. Hahn:

We are sorry for the great delay and confusion concerning the proposed applications for amendment filed in connection with Permit No. 31103, Dwain J. Anderson and Permit No. 33462, William James McCullough.

As indicated in our telephone conversation, the departments most probable course of action will be to disallow the proposed expansion of these permits. Either filing a claim to a water right or filing an application for permit would be a more practical approach to the problem at hand.

As of this date we have not officially processed the applications nor received the fees for the amendments in question. If you would so request, we will return the applications and the \$5.00 checks. If you wish, however, we will process your amendments through the normal channels.

We are waiting your instructions.
