Dear Mrs. Watt:

One of the conditions of approval of your water Permit No. G-33436/35-2859 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Furchner:

In reviewing the two above referenced permits in the name of Margaret D. Watt, we find that the lands that you wish to have amended under Permit No. 35-2524 are already covered under Permit No. 35-2859. If you have two wells serving the lands described in Permit No. 35-2859, then all that will be necessary is an amendment to that permit, including one more point of diversion. This will not affect the total quantity required under the original permit, but will give the applicant the authority to irrigate all of the described lands from the two wells,

As you will note, we have enclosed a map showing the location of the lands and wells as described in the original permits. We are also enclosing an amendment form for your use in this matter.

If you should have any questions, please do not hesitate to contact this department.

Very truly yours,

Dorian Clay

Dear Mr. Furchner:

We have evaluated the amendment submitted in the behalf of Margaret D. Watt for permit no. 35-2524. We find in the evaluation of this amendment that our letter of February 2, 1971, was in error and that amending the permit is not necessary.

We are enclosing copies of the two above referenced permits and beneficial use affidavits, for your own convenience. We are sorry for any confusion we may have caused and we will return the \$5.00 amendment fee in the near future.

If you should have any further questions in this matter, please do not fail to contact us.

Dear Mrs. Watt:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until February 1, 1972; however, many newspapers do not keep copies of these advertisements in their files. Re: Permit No. G-33436 (new no. 35-2859)

Mrs. Margaret D. Watt
Pingree,
Idaho 83262

Dear Mrs. Watt:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department: previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mrs. Watt:

Returned find your recent permit application. Before this application can be considered, we will need some more information.

Under permit G-32839, you claim S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 27 and NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 34, T. 2 S, R. 32 E, for irrigation from a well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 34. Have your plans changed with respect to this well and land? If so, what is now proposed?

In order to irrigate the land listed under your proposed application, a new permit will be necessary. If you plan to develop the ground as a single unit, it might simplify the procedure to file for a single permit to cover all the land with water from all the wells, if more than one well is involved.

If you would explain your project to us, perhaps we could help you decide on the procedure that would be best for you.

Very truly yours,

Donald J. Watts
