Dear Mr. Nakamura:

One of the conditions of approval of your water Permit No. G-33387/35-2851 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 10, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

In reference to your letter of December 2, 1969, please be advised that proof of beneficial use is not required to be submitted until January 10, 1972. The permit holder may submit the required proof at any time he so desires; however, as indicated, it is not mandatory until 1972.

Inasmuch as proof of beneficial use could be delayed for as long as 1972, it is optional whether or not the permit holder make a measurement at this time or at a later and more convenient date.

We do request, however, that the advertising authorization be submitted for publishing purposes at this time.

Re: Permit No. G-33387 (New No. 35-2851)

Mr. Tugi Nakamura
Blackfoot,
Idaho

Dear Mr. Nakamura:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
