Re: Lloyd L. Hutchison
Permit No. G-32082

Attn: C. Stephen Allred

Dear Mr. Allred:

On behalf of the above named permit holder, we enclose herewith his affidavit for proof of application of water to beneficial use and notice of existing water permit and authorization for publication.

Your letter of September 25 was not received by Mr. Hutchison until yesterday. Because of this delay and some misunderstanding and misinformation on his part, and on the part of the Federal Land Bank as to whether or not final proof should be made, he has not previously submitted these statements to your office.

As I understand it, there would be no necessity for an extension of time since we assume this proof will arrive in your office on or before October 2. However, if I am in error, please consider this as an application for extension of time because of the facts stated in the preceding paragraph and you are authorized to make any appropriate changes of dates in the notice of existing water permit.

Very truly yours,

Re: Permit G-32082

Dear Sir:

In reply to your letter of August 1, 1969 regarding the proof of completion of works under the above-numbered well permit we wish to advise you that we have been checking through our papers and found that we have already been issued a license for this well. This license was issued under application #29045 and permit #21353 with priority date of January 27, 1955, recorded in Book 76 of Permits on page 21353. We, therefor, wish to cancel the permit under G-32082 in order to hold our priority date established under permit #21353. The points of diversion and acreage irrigated are the same.

Will you please advise us as to whether or not further action is necessary on our part.

Yours very truly,

Lloyd S. Hutchison

Re: Permit No. G-32082

**Lloyd L. Hutchison
Pingree,
Idaho**

Dear Mr. Hutchison:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Dear Mr. Hutchison:

One of the conditions of the approval of your permit no. G-32082 was that proof of application of the water to beneficial use be submitted to this office on or before October 2, 1969.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit
License No. 21353

Lloyd L. Hutchison
Pingree, Idaho

Dear Mr. Hutchison:

Returned herewith is your application for permit
with attached check for \$5.50 filing fee.

License No. 21353 shows your land as SE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$,
Sec. 4, T. 4 S., R. 33 E. and the well in SE $\frac{1}{4}$ SW $\frac{1}{4}$, the same as your
maps, however the application describes land as N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$,
Sec. 4, and the well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 4.

I have corrected the application in pencil and
changed answer to 10 to 5 years. You must have time to make the
necessary proofs which can be made at any time earlier, after
the permit is issued. The amount claimed has been reduced to
1.02 c.f.s., filing fee \$5.25.

Kindly check and return the application with proper
fee for processing.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer
