Dear Mr. Droghei:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-30130 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit licensing fees of \$13.00,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before November 27, 1967, why said permit should not be cancelled.

Permit G-30130 claims the use of 3.0 cubic feet per second of water. The point of diversion was to be located NW~~4~~SE~~4~~, Sec. 29,
T. 3 S, R. 33 E, B.M., Bingham Co, and the permit was approved September 1, 1961.

Re: Permit No. G - 30130

Charles Droghei
Pingree, Idaho

Dear Mr. Droghei:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30130 are due not later than Sept. 1, 1966

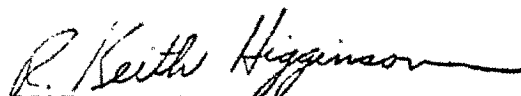

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Dear Mr. Furchner:

The applications referred to in your letter of September 21st have all been approved and permit numbers assigned as shown above.

The permits will be issued as soon as they have been recorded. The forms for recording permits were exhausted and there was considerable trouble in obtaining a new supply.

Very truly yours,
