Dear Mr. Thurston:

One of the conditions of the approval of your Permit No. G-32700/35-2806 was that proof of application of the water to beneficial use be submitted to this office on or before January 21, 1971.

Enclosed is an affidavit form which must be used to submit proof of beneficial use. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.

Either the proof affidavit or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32700/35-2806

Mr. Thurland D. Thurston
Pingree,
Idaho

Dear Mr. Thurston:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Thurston:

In reply to your inquiry of November 30 regarding the use of water from a sink well on 40 acres of your land, we wish to inform you that if this water was used prior to the 1963 irrigation season no permit is required and you have a use right which is legal; however we would issue a permit on application.

If the water has been appropriated since 1963 it will be necessary for you to file for a new permit showing the sink well as the source of water.

Enclosed find the required forms and instructions should a permit filing be necessary or desired.
